### HALE AND CARRANZA ARE IN CONFERENCE

Great Significance Attaches to the Meeting of President Wilson's "Personal Friend," With the Leader of the Mexican Constitutionalists.

#### THOUGHT FORERUNNER OF U. S. RECOGNITION

Former Ambassador Henry Lane Wilson in a Published Article Discusses the Mexican Situation and Says Every Foreign Diplomat in Mexico Believes Intervention by the U. S. is Only Practically Remedy.

By Associated Press.

Washington, D. C., Nov. 12.—Conferences now being held between William B. Hale and General Carranza, leader of the Constitutionalists, at Nogales, are interpreted in official circles here as the first open move by the United States government to show its interest in the Constitutional movement in Mexico. No officials committed themselves today on Mr. Hale's exact status, but on a previous occasion when he spent three months in Mexico City, gathering information, President Wilson let it be known that Mr. Hale was there as a personal friend.

Hale transmitted reports, however, and took part in conferences with John Lind and Rear Admiral Fletcher Little doubt still exists in diplomatic circles that while Mr. Hale still remains the character of unofficial envoy, he is furnishing the United States government with information for official purposes. There was no announcement here today as to future steps in the American policy.

Rear Admiral Boush of the battleship Louisiana at Tuxpam reported to the Navy Department today there was no immediate need of protection to American property in that vicinity. For the present the Louisiana will remain at Tuxpam.

#### CONFERENCE IS ON

By Associated Press.

Nogales, Sonora, November 12.—William B. Hale, President Wilson's personal representative, went into conference just before noon today with Gen. Carranza and the entire Mexican Constitutionalist cabinet.

#### HENRY LANE WILSON FAVORS INTERVENTION

New York, Nov. 12.—Henry Lane Wilson, former United States ambassador to Mexico, in the current number of The Independent discusses "the latest phase of the Mexican situation." He says that without exception, as he remembers, every foreign diplomat at Mexico City believes that intervention by the American government is the only practical remedy for the disorders of that republic.

Mr. Wilson makes this declaration, he asserts, so that public opinion may not be led astray by false alarms that the European nations are conspiring to block the policy of the United States. On the contrary these nations will do all they can, he says, to help this government to bring about peace and safeguard their commercial interests.

Mr. Wilson says that two courses are open to the United States—the recognition of the government which will succeed Huerta, or intervention. He dwells somewhat extensively on the evil results of intervention, and adds that Mexico can only be pacified by another Diaz, without saying that Huerta is such a man. He says that John Lind's mission was foredoomed to failure, and concludes by saying that he would like to see this government "modify some of the unhealthy attributes of the Monroe doctrine which have come to the surface in the last 15 years."

#### MARINE DISASTERS

By Associated Press.

Goderich, Ontario, November 12.—Reports from points along the shore of Lake Huron, point to heavy loss of life and shipping in the recent storm. Seven bodies from the schooner Charles S. Price have come ashore below Grand Bend. Wreckage found here indicates that the James Carrouthers, the largest Canadian freighter on the lake, has been lost.

Fort William, Ontario, November 12.—Fears today were expressed for the steamer Leaffield aground on Angus island beyond Thunder Cape, by officials of the passenger steamer Hamonic. The tug J. C. Horne made two trips out but was unable to find any trace of the Leaffield. Marine men believe she slipped off the rocks and sank at once, as she was loaded with steel rails. She carried a crew of 15 men.

Lisbon, Spain, November 12.—11 of the crew of the Italian bark Elva were drowned when that vessel sank today in deep water after striking a rock in the mouth of the river Mira, while maneuvering to avoid a collision with another ship. Only three members of the crew were saved.

Port Huron, Michigan, November 12.—Although many vessel men are firm in their belief that the steamer which turned turtle in Lake Huron a few miles northeast of here is the ill-fated Regina of Toronto, others are equally confident today that she is not. It is regarded certain however, that the Regina went down during the storm.

#### \$150,000 FIRE LOSS.

By Associated Press.

Proctor, Vt., November 12.—A temporary shortage in food in this village resulted from the destruction by fire early today of the large building housing the Co-operative Store, conducted by the Vermont Marble company. The loss is \$150,000.

#### ROBBERS BURN VICTIM'S FEET

By Associated Press.

Beaver Falls, Pa., November 12.—Three masked men broke into the residence of Phillip Stackely at West Bridgewater early today and binding him to a chair, burned his feet with hot irons and he disclosed the hiding place of his money. They found \$27.15 and after taking the money they beat him into insensibility. When he recovered Stackely gave the alarm and the police trailed the men to Folsom, Pa., where, after a battle, they captured two of the robbers who gave their names as Charles Tice, of West Bridgewater, and John Kohler, of Monaca, Pa.

#### ON VACATION

By Associated Press.

New York, November 12.—John P. Mitchell, mayor-elect of New York sailed for the West Indies and Panama Canal for a three weeks rest after the vigors of the campaign. Mrs. Mitchell accompanied him.

#### HICKORYNUT CAKE 29 YEARS OLD.

Bellefontaine, O., Nov. 12.—Mrs. James B. Hemphill of Ludlow road served a hickorynut cake at a family dinner. The cake was baked 29 years ago and was pronounced delicious by the guests.

#### THREATENS TO EXPOSE INSIDE

By Associated Press.

Seattle, Washington, November 12.—Secretary of Labor Wilson addressed the American Federation of Labor today, bitterly condemning the attitude of the Michigan Copper Mine companies and warning them that a new conception of titles to property was in progress of formation. He declared he would make public not only the wages paid to the miners, the hours they worked and labor conditions, but the enormous profits of the mine owners.

#### OFFERED BREAD AT 50C A LOAF

By Associated Press.

Columbus, Ohio, November 12.—Senator J. I. Hudson, of Portsmouth, member of the Good Roads Commission, who has been touring the east gathering information to assist in the betterment of roads in Ohio, arrived here from Cleveland today after having spent a couple of days on snow-stalled trains. Passengers on the train between here and Cleveland had nothing to eat, but a man offered to sell each person, a loaf of bread for 50 cents, Senator Hudson said.

#### IN SESSION ALL NIGHT

By Associated Press.

Lexington, Ky., Nov. 12.—After an all night's session, the stockholders of the Burley Tobacco company adjourned at 6 o'clock this morning for a few hours rest before proceeding with the election of officers. Before adjournment, enough votes had been counted to insure the election of the directors who are favorable to the old management of the company, of which Clarence Lebus was the head.

### PERUVIAN EARTHQUAKE KILLS MANY HUNDREDS

By Associated Press.

Lima, Peru, November 12, 1913.—Three towns were destroyed and several hundred persons killed in an earthquake which occurred last Friday in the mountainous Peruvian province of Aymaraes. News of the disaster reached this city by courier.

The number of known dead was 120 when the couriers left the devastated district, but it is believed several hundred more bodies will be recovered from the wrecked towns. The survivors are living in the open spaces and are suffering great privations on account of lack of food and shelter.

#### ALLEGED NOTORIOUS FORGER CAPTURED

By Associated Press.

St. Louis, Mo., November 12.—A. H. Dulaney, under indictment here for forgery and alleged by the police to be a notorious forger, was captured by a citizen here today after a chase and fight in the heart of St. Louis. When he was captured, his fourth wife, a bride of three weeks, was waiting for him at a hotel. She told the detectives that her husband had told her he had a government position and that he soon was to go to Argentina on a diplomatic mission.

#### TRAIN ROLLS DOWN GRADE

By Associated Press.

Grand Rapids, Mich., November 12.—No deaths had occurred at noon today as the result of the derailment of the Pere Marquette passenger train No. 108 three miles east of Holland, Mich., last night, but the condition of at least one of the injured passengers is critical. Not one of the train's 22 passengers escaped without injury. Only 14 were hurt seriously. The train rolled down a 15-foot embankment.

#### TO DRIVE FOOD OUT OF STORAGE

By Associated Press.

Washington, D. C., November 12.—As a reminder of the high cost of living, Representative McKellar, of Tennessee today introduced a resolution to make unlawful any interstate shipments of beef, veal, mutton, lamb, pork, fish, poultry, butter, eggs or other perishable food stuffs after being kept in cold storage more than 90 days. Fines and imprisonments are provided as penalties.

#### CLEVELAND RECOVERING

By Associated Press.

Cleveland, Ohio, Nov. 12.—As today progresses, prospects for a speedy resumption of normal street car traffic were bright, and it is expected that the railroads rising above the effects of the blizzard would establish communications with the outside world, on a basis much nearer to schedule time than yesterday. Bright sunshiny weather prevailed and the rising temperature pointed to a thaw. Vessels were able to clear Cleveland port today.

Life savers and tug owners were on the lookout for traces of wrecks on Lake Erie. The telegraph and telephone companies will not be able to restore their lines completely for weeks and perhaps longer.

The end of the scarcity of food is at hand. Several trains loaded with meats and provisions reached the railroad yards this afternoon and it is expected that the situation will soon adjust itself. The milk situation was relieved at noon by the arrival of 2000 gallons of milk from Wellington, Ohio. Public and private charitable organizations are aiding 7000 families.

#### EIGHT GOVERNORS ON THE PROGRAM

By Associated Press.

Columbus, Ohio, Nov. 12.—With eight Governors and former Governors on the program, this promises to be the biggest day of the Convention of National Anti-Saloon League held in this city. Among the Governors scheduled to speak at this session are L. B. Hanna, North Dakota; George H. Hodges, Kansas; and William T. Haines, of Maine. The list of former governors includes M. R. Patterson, Tennessee; J. Frank Hanly, Indiana, and E. W. Hoch, of Kansas. At the election this afternoon, National President Purly A. Baker, of Westerville, it is expected, will be elected without opposition.

#### EX-GOV. PATTERSON PROUDLY ENLISTS IN LIQUOR FIGHT

Former Governor Patterson, of Tennessee, said in part:

"The Anti-Saloon League and I have not always been friends. The paths we traveled were wide apart. They seemed so parallel it looked incredible they should ever meet, but they have met. The path I traveled turned in its course. It ran into the other and we now find ourselves in the same road, marching in the same direction, under the same flag, actuated by the same desire to destroy the liquor traffic and redeem a nation from its curse. I am aware that to have suddenly changed the views of mature manhood which I once asserted and proclaimed from one end of Tennessee to the other, has excited surprise and provoked comment, but this is a world of change. I am neither ashamed nor abashed to stand before this great audience and acknowledge the wrong when I once advocated policies which would have made liquor a trade which I have come to look upon as having no place in the scheme and economy of Christian civilization."

#### BLIND LAW O. K.

By Associated Press.

Columbus, Ohio, November 12.—The Court of Appeals today declared constitutional the new Blind law passed by the last legislature. The decision was given in a test suit to determine the constitutionality of the law.

#### WHOLE FAMILY BURNED

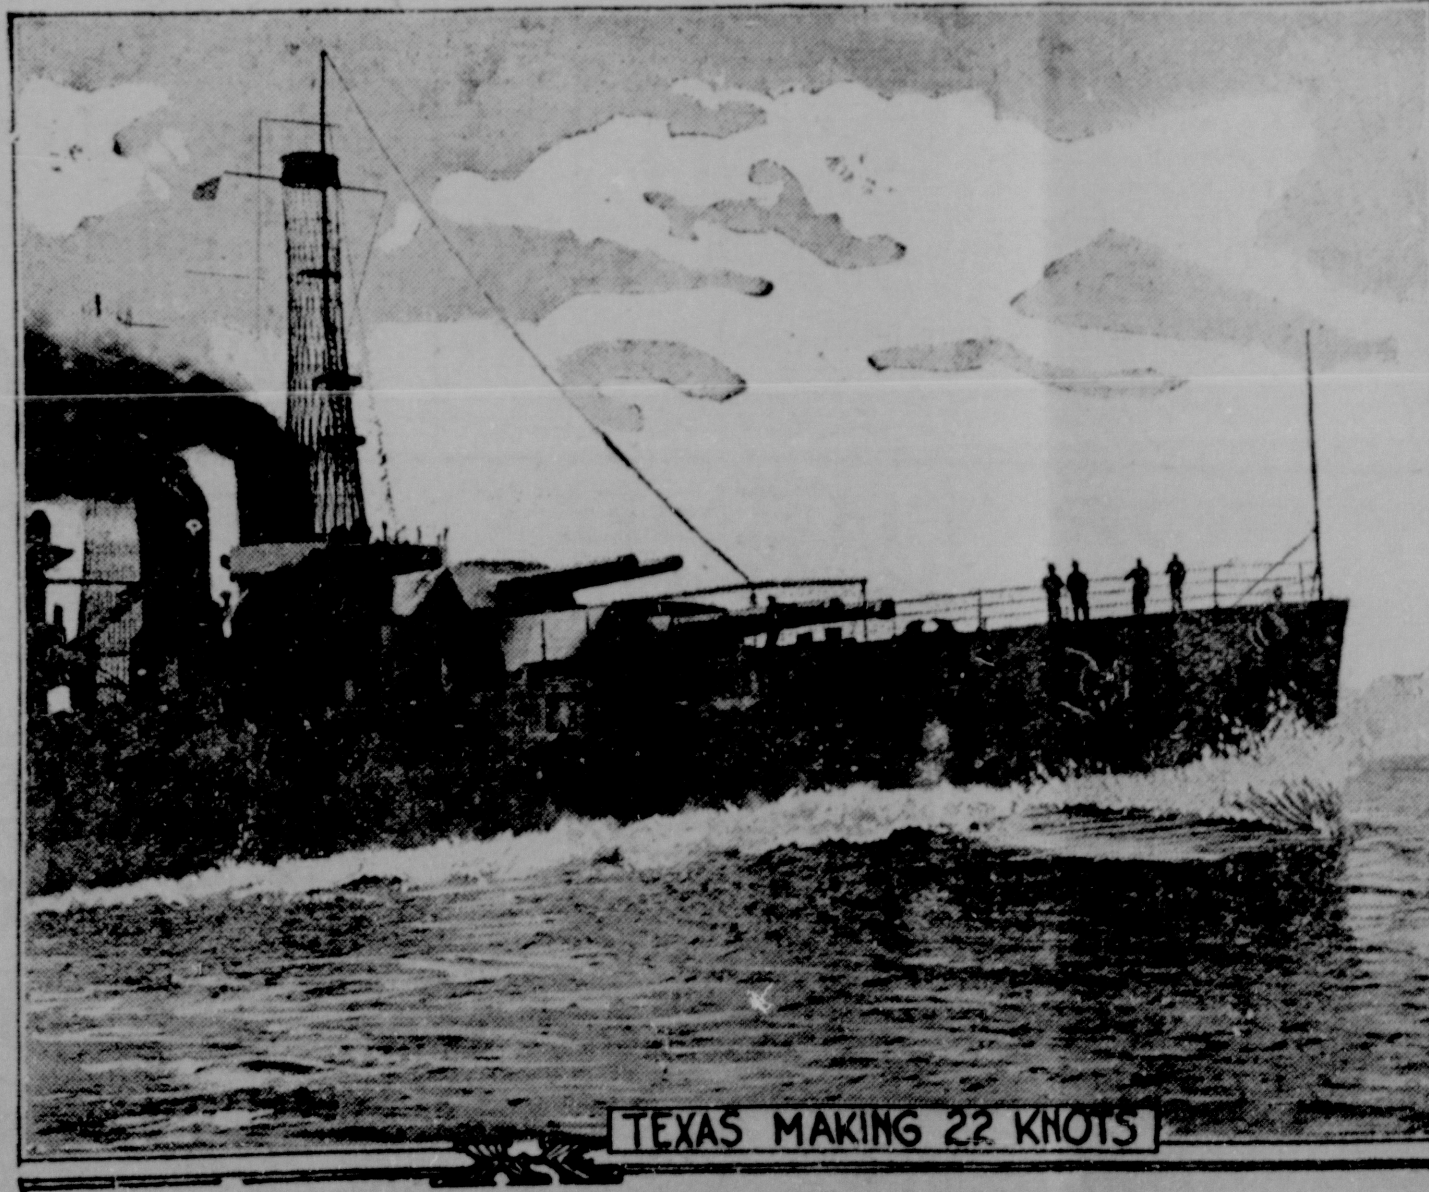

By Associated Press.

Macomb, Ill., November 12.—Douglas Lafferty, his wife, daughter and three grandchildren were burned to death in a fire which consumed their home in Browning near here early today. Lafferty kindled the kitchen fire and returned to bed. The house caught fire shortly afterward.

The contents of a can exploded when a fuse becomes overheated and give an audible fire alarm in a recently patented device along that line

### THE BATTLESHIP TEXAS, NAVY'S PRIDE, IN A TRIAL RUN OFF THE MAINE COAST

Rockland, Me., Nov. 12.—The new battleship Texas is the most powerful vessel in Uncle Sam's navy, and she is the largest. During her recent test runs off the Maine coast she attained the high speed rate of 22 knots. There is no doubt that the Texas is one of the most formidable fighting crafts afloat today. Her bite is much worse than her bark.

## Appalling Statistics

The Railway Age Gazette makes the assertion that the number of persons killed by automobiles in only 22 cities was 64 per cent greater than the total number of railway passengers killed. It was likewise five times as great as the number of passengers killed in train accidents alone, which was 139.

The largest number of passengers ever killed in all ways in one year, on the railways of the United States, was 647, and yet this worst of all records, which was made in 1907, was 44 less than the number killed in automobile accidents in 1912, in the 22 cities.

This assertion is based upon the statement of Frederic Rex, municipal reference librarian of Chicago, who finds that in 1912 the number of persons killed by automobiles in 22 American cities having 100,000 or more population, was 691.

These statistics are certainly appalling, and all the more so when one considers how totally unnecessary automobile accidents often are.

While there must always be exceptions to all rules, it is an established fact that by far the greater part of the auto accidents which occur are due to fast driving or to carelessness.

Not long ago the papers were full of the terrible tragedy which followed a thoughtless woman urging an auto driver to cross a railway track in the face of an oncoming train. Five lives were snuffed out in a moment by one woman's recklessness.

There is nothing which has contributed so much to the pleasure and convenience of the nation at large during recent years as the automobile. It is here to stay and is more and more becoming indispensable.

It is hoped that the warnings of terrible accidents, as heralded every day by the newspapers, and the compiling of statistics such as those set forth by the Railway Age Gazette, will lead to more care on the part of drivers.

The death toll of our railroads sinks into insignificance, compared to that of the automobile!

## The Motive Power

There's a great difference between doing one's work from love of it and shambling through it because it has to be done.

Stop and think a moment! Did you ever know a man to achieve genuine success who hated his work and dragged reluctant feet to it every day? Who watched the clock and didn't wait for it to strike till he was out and gone?

The high road to success is reached only by the stimulant of real interest and the sacrifice of many things to the dominant purpose. If a man—the masculine noun may stand for either sex—brings no zest to his work, one of two things is true—he is not suited to the line in which he is engaged, or he is lacking in earnest purpose—some call it shiftlessness.

If the former, the wise man seeks out the work that he finds more congenial and to which he can bring eagerness. If the latter—well, there isn't much hope for the man who doesn't know the meaning of the phrase, "love of work!"

"Work is becoming to some men, like whiskers, or red ties, but it doesn't follow that all men can stand it!"

We often hear the sympathetic words, "Poor fellow, he always has hard luck!" But is it always "hard luck?" Of course, there are isolated cases where apparent failure is due to a chain of unfortunate circumstances. But isn't it more often due to the man's own lack of grit and effort?

## Poetry For Today

### IF I COULD WRITE.

If I could write a poem it would be  
All made of joy.  
Of laughing, sunny days and then,  
you see,  
Beyond a doubt,  
You'd read it and you'd know what  
'twas about.

If I could write a story it would be  
A pretty thing.  
About plain people just like you and  
me,  
And that's a bit  
Above a million things that have  
been writ.

If I could write a play it would not  
be  
Of hideous things  
That scare the world and trouble you  
and me;  
That make us good  
By telling us how bad we're said to  
be.

If I could write a poem or a play  
Or anything,  
I'd try to write it in the gladdest way  
But what's the use?  
No one would print it if it did no  
one abuse.

## DELICATE CHILD

Made Strong and Healthy by Vinol.

Growing children play hard and work hard at school, which with rapid growth uses up an enormous amount of energy and vitality that must be replaced.

When a child is tired all the time, no appetite, weak, delicate and sickly, we guarantee Vinol, our delicious cod liver and iron tonic, will build them up, create a hearty appetite, sound flesh and muscle tissue, pure, healthy blood, and make them strong.

Mrs. L. L. Bertrand, New Iberia, La., says: "My little one was weak and run down in health, and was continually taking cold. Different medicines failed to help, but when Vinol was recommended I found it a wonderful help to my child. It broke up the cold, and quickly restored health, and strength. Vinol is a most excellent tonic for children."

If Vinol fails to do just what we say, we will give back your money. Blackmer & Tanquary.

P. S. For any skin trouble try our Saxo Salve. We guarantee it.

## INTERESTING BITS OF NEWS

(By John E. M. Kerr.)

200 employees of the dead letter office handle about 20,000,000 pieces of mail a year. Perhaps 2,000,000 can be returned to the sender or addressee unopened. The letter opener expert, can handle 3,000 pieces of mail a day. Of all this unclaimed mail, record is made only when valuable enclosures, as money, commercial paper, wills, deeds, mortgages, receipts, power of attorney, and all legal papers, stamps and articles of merchandise are found \$100,000 a year is the average amount returned to owners. One year \$2,000,000 of commercial paper is found.

Boston's Toy theater is erecting a new playhouse of its own with money supplied by two wealthy patrons. To continue on the same lines that have governed it for two years, the theater will give plays by American and foreign authors, especially such works as cannot command a commercial public. The Toy theater can attract a limited Boston Back Bay public sufficient to warrant its existence.

Nearly \$37,000,000 worth of "finishing touches" are to be made upon the Panama Canal next year, if Col. Gotha's recommendations made to Congress are approved. Storehouses, dry docks, coal stations and machine shops have not yet been constructed. Members of the appropriation committee sailed Saturday from New York to get first hand information.

A farmer going into Alaska, near Fairbanks, to raise wheat found the right land but also difficulties. Commenting on his experience he cites these facts: "The bringing in the seed would cost about \$1 a bushel. There are no thrashing machines in the valley and it would cost \$600 (freight) to get a machine there. Fencing and clearing land, say 100 acres, would go into a very considerable amount of money. If I could produce 50 bushels to the acre, and I am perfectly confident I can, I should produce 1000 bushels of wheat. What could I do with it? There are no mills there and if I should ship to Seattle it would cost me 60 cents a bushel. It would be an impossible crop to market."

In one month, in the Toronto market, following the enactment of our tariff laws, prices of cattle jumped from \$6.50 to as much as \$8.25 per hundred weight for choice steers. Canada, a short time since, seemed to be able to produce enough beef for home consumption, and some to spare, with the result that prices did not range high. As soon as our market was thrown open the higher prices prevailing here, due to shortage of supply, at once became the standard in Canada and began to attract cattle southward.

Secretary Bryan and Mrs. Bryan, who took for their Washington residence "Calumet Place" as it is known, formerly occupied by Gen. Logan, of Illinois, have established something of a foreign world setting within the American home. It is said there are many things visible therein reminiscent of the Noblesse's trip around the world. Mr. and Mrs. Bryan have diplomats and dignitaries of the nations of the earth at state dinners in an attractive dining room of southern type and there is brought to it some adornments of the Secretary's own plains country, which are seen side by side with objects from many countries of the globe. The room where guests are received is especially adorned with relics from many lands.

## A GLIMPSE BACK THROUGH YEARS

(John E. M. Kerr.)

June 6, 1872.

Another Pioneer Gone:—William Hays, born near Cynthiana, Ky., 1792, died after an illness of four months, 1872. His parents came from Pennsylvania and settled at an early day in Kentucky. In 1803 he came with his parents to Franklin county. In 1805 he came to Fayette before the county was organized. He married Miss Jane Lynn, of Frederick, Va., in 1818. Three of their seven children are living, Morgan and Hackney Hays and Mrs. Letitia Heagler, wife of Elijah Heagler. "An honest man's the noblest work of God."

The laying of the corner stone of the new Catholic Church, a short distance from town, on the Circleville pike, took place Sunday. A procession, numbering 400 persons, was formed at the Catholic church on Main street, and marched to the new church, where the ceremonies were conducted and a short address delivered by Archbishop Purcell, of Cincinnati.

The ticket hereinafter given, selected at the primary Saturday, is a good one, all the gentlemen well qualified to fill the offices satisfactorily to the people.

Sheriff, John Millikan; Auditor, A. McCandless; Clerk, M. Blanchard; Probate Judge, J. B. Priddy; Commissioner, A. C. Johnson; Recorder, Z. W. Heagler; Infirmary Director, E. B. Updergrove.

The following were the delegates chosen: Union Township, Allen Heagler, Daniel McLean, S. W. Stuckey, Wm. Burnett, Wm. Millikan.

Alternates: Darius Waters, P. E. Morehouse, E. C. Hamilton, John Miser, F. L. Nitterhouse.

## To Keep Young One Must Be Full of Life and Should Dress Young

By Mme. NELLIE MELBA, Prima Donna

TO KEEP YOUNG ONE MUST KEEP ALIVE. ONE MUST BE WHAT YOU IN AMERICA CALL A LIVE WIRE. THE WOMAN WHO GROWS OLD IS THE WOMAN WHO GETS INTO A RUT AND STAYS THERE. SHE SHOULD HAVE A QUANTITY OF INTERESTS AND DEVOTE HERSELF PASSIONATELY TO EVERY ONE OF THEM IF SHE WOULD REMAIN ALERT AND VIGOROUS. BOREDOM AND INERTIA ARE THE FATAL ENEMIES OF YOUTH. ONE MUST DRESS YOUNG TO LOOK YOUNG.

I do not approve of the slit skirt, though. I think that it is vulgar and immodest. I do not approve of many of the extremes of modern fashion. They seem to me hideous, and I cannot understand how they can be adopted by a nice woman with artistic sensibility. NOTHING THAT IS EXAGGERATED IS ARTISTIC. The outre in dress is like a false note in music. It shocks.

Dress is an art as much as music or painting. DRESS DEMANDS STUDY AND NATURAL TALENT.

I like the way American women dress. I think they are most chic. They know how to select their clothes and how to wear them. Then they have such beautiful figures, and they walk so well and look so young.

# COUNCIL HOLDS SPECIAL SESSION OF IMPORTANCE

**\$2750 in Bonds to be Issued to Pay City's Portion of the Alley Paving Improvement—Funds Transferred to the Sinking Fund—Assessing Ordinance Passed—Water Company Trouble Soon to be Adjusted.**

A lengthy special session of the city council was held Tuesday night, with all members present, and many matters were brought up and discussed during the evening, while action was taken on several resolutions and ordinances.

Member Durant, as chairman of the Safety committee, reported that an amicable settlement of the controversy between the Washington Water company and the city was now near at hand, and he believed the double suction line promised by the company would be constructed in the near future. President Myers of the company is expected in this city within the next few days, and the committee expects to adjust all differences at that time.

When the ordinance to regulate the weighing of coal, coke, hay and grain was brought up, considerable argument resulted before definite action was taken on the measure, when it was passed.

A resolution to issue bonds in the sum of \$2750 for paying the city's portion of the alley paving, nearly went down to defeat before council understood the intention of the bond issue, as it was at first believed that the amount was for the resurfacing of streets instead of the alley improvement.

A resolution for the sewer improvement on Yeoman and McElwain streets, was passed, and the troublesome sewer will be taken care of accordingly.

The assessing ordinance on the alley extending from Court to East street between Fayette and Main, was read the third time and passed.

Complaint having been made that certain railroad crossings had not been improved as asked by council at a previous meeting, a resolution was adopted instructing the service director to again request the railroads to look after their crossings.

A resolution was passed transferring \$1313 from the Rawlings and Pearl street special assessment to the sinking fund to be used by the sinking fund trustees in the purchase of bonds.

Adjournment was taken until the next regular meeting, which is also the last meeting of the present council.

## WASHINGTON MILL BADLY HANDICAPPED

The snow storm of Sunday and Sunday night threatens to tie the Washington Milling company up unless relief is furnished yet today, as all available cars for shipping have been used and the railroad has not been able to furnish additional cars for the outgoing flour.

Tuesday evening an engine started to place some cars for the company, and had barely started when the engine "died" and the work was again postponed.

Meanwhile the flour has been stored in every available corner and everything placed in readiness to load cars in a hurry when they are secured. No grain has been shipped into the mill since the storm.

Wednesday morning it was stated that if cars could not be secured sometime Wednesday, the mill would probably close down Wednesday night until cars were on the siding ready for use.

With the exception of the flood last March, the mill has run continuously almost night and day.

## MUCH DISCOMFORT AT THE INFIRMARY

Owing to the heating system at the County Infirmary having been condemned by a state inspector, who refused to allow a greater pressure than 15 pounds, a large part of the institution has been very uncomfortable the past few days, owing to the inability of the crippled plant to furnish heat to keep all of the building warm.

Supt. Casey has been doing all in his power for the comfort of the inmates, but keeping the plant at the pressure permitted by the inspectors has failed to prevent the cold creeping into the big structure.

It will probably be some three weeks before the work of installing the new heating system is started. Meanwhile much discomfort will result from the cold.

## REMAINS ARRIVE FROM NORTH DAKOTA

The remains of Isaac Rogers, 61, who died in Sharon, North Dakota, November 7th, arrived in this city on the 9:45 train Wednesday morning, and were accompanied by his wife and sons, Lee and John.

The remains were taken to the residence of R. A. Richardson, on East Temple street, and funeral services will be held Thursday morning at 10 o'clock. Burial will be made in the Washington cemetery.

The deceased was a former resident of eastern Fayette and has many relatives and friends in this county.

## TAKES HIS MAN TO GREENFIELD

The marshal of Greenfield came up Tuesday afternoon and accompanied Clarence Greene back to Greenfield, where the man faces a charge of non-support.

It was ten o'clock before the marshal and his prisoner left the city, on account of the lateness of the D. T. & I. train.

Greene is the man who was arrested on the morning train from Jeffersonville Tuesday morning, after he had eluded the marshal at that place.

## ICE AND SNOW FALLS TO THE SIDEWALK

With a resounding crash, a large mass of snow and ice, which had accumulated on the sloping roof of the block at the Washington Savings Bank corner, fell to the sidewalk, Wednesday morning, but fortunately there was no one in the path of the avalanche.

A half ton of the accumulated ice and snow was in the mass that crashed to the sidewalk, and had a pedestrian been passing at that time serious injuries would probably have been suffered by the unlucky person.

Owing to the nature of the roof at the above mentioned place, there is danger of someone being seriously injured by falling ice and snow.

# "JIM" WILL VISIT THE Y. M. C. A. AND TELL WHAT HE SEES THERE

The Young Men's Christian Association is starting an advertising campaign to bring to the attention of everyone the facts and figures concerning its work. There are many persons who have never been inside its walls and know nothing of its work or activities. And there are some who have observed many phases of its effort and have not investigated its programs.

The value of its community extension is well known and the association is anxious that everyone become familiar with the only organization of the city that really belongs to all

the people, that has as its purpose the helping of all the people, all of the time.

To give the reading public the full and complete report of its work and programs, the Association has secured one of Washington's young men to visit the building each day and "drink in" the atmosphere and learn from its employed force what he can for those on the outside. Now Jim hasn't been going "down there", and he ought to be able to hand out the details in a way that all can understand.

Tomorrow, the Herald will publish "Jim's Arrival at the Y. M. C. A."

## ACTIVE PLANS FOR WINTER'S WORK

The Woman's Auxiliary, Y. M. C. A., is now actively engaged in plans for the winter's work. Its organization is under the supervision of the Y. M. C. A. and its officers were appointed by the Y. M. C. A. trustees.

The organization was effected as a board of ten women, the four Protestant churches of the city each having representation on the board.

Grace church is represented by Mrs. W. W. Davies, Mrs. D. H. Rowe and Miss Edith Gardner; the Presbyterian church by Mrs. Austin F. Hopkins, Mrs. J. T. Tuttle and Miss Emma Jackson; the First Baptist by Mrs. Carrie B. Willis, Miss Florence Ogle and the Christian church by Mrs. Will E. Robinson and Mrs. Clifford Irvin.

Withal the representation of the different churches in the formation of the board, the Auxiliary is non-sectarian and there are no lines drawn on its membership.

The Board recently organized with Mrs. Willis, president; Mrs. Hopkins, treasurer and Miss Gardner, secretary.

As its name implies the Auxiliary will do everything in its power to lend a helping hand to the Y. M. C. A. Its special efforts are just now devoted to the establishing of a rest room in the Y. M. C. A. plant.

In this project they are urging the co-operation of women of both town and county.

The fees are only \$1.00 and it is hoped that women generally will become honorary members, at least, of the Auxiliary.

So far no permanent meeting place has been leased for the class. A meeting of all those interested in the physical culture work will be called within the next few days.

## EGG PRICES DROP

Result of Campaign of New York Housewives' League.

New York, Nov. 12. — The Housewives' league already claims encouraging results in the campaign against the high price of eggs. Mrs. Julia Heath, the president of the league, and 11 other women asserted that all of the stores had cut off at least a few cents from the prevailing high prices. In some places the best storage eggs are selling as low as 33 cents a dozen. In some of the higher-priced stores, however, fancy eggs were priced as high as 75 cents a dozen.

## VALUABLE ESTATE

New York, Nov. 12. — The will of Charles G. Gates, who died suddenly at Cody, Wyo., Oct. 29, leaves the bulk of his estate in equal shares to his mother, Mrs. John W. Gates, and his wife, Florence Hopwood Gates. The value of the estate is estimated at between \$3,000,000 and \$5,000,000. Accordingly, the two residuary legatees will probably inherit over \$2,000,000 each. The will was executed on Aug. 2, 1912, and names Mrs. John W. Gates as sole executrix.

## CHANCES ARE SLIM

Washington, Nov. 12.—The question of the selection of Henry M. Pindell of Peoria, Ill. for the ambassadorship to St. Petersburg, was the subject for extended discussion at the state department. Mr. Pindell's chances for representing his country at the court of the czar "for one year only" are said to be no brighter than before. Pindell is an editor.

## TEDDY MAKES HIT

Buenos Ayres, Nov. 12.—A profound impression of friendship to the United States has been created by the speech made here by Colonel Roosevelt, in which he said that Argentina no longer needed the protection of the Monroe doctrine, but had now become a sponsor of that doctrine together with the United States.

## PEYTON IN JAIL COULD NOT PAY

Jess Peyton was arrested at Jeffersonville Tuesday afternoon and brought to this city by Constable A. A. Hisey, on a charge of failure to provide for his minor children.

In Probate court he was given the usual \$200 and costs and 3 months in the work house, and this was suspended as long as he provides for his small children, which he agreed to do.

He was also given \$5 and the costs for contempt of court and when he

## Appalling Statistics

The Railway Age Gazette makes the assertion that the number of persons killed by automobiles in only 22 cities was 64 per cent greater than the total number of railway passengers killed. It was likewise five times as great as the number of passengers killed in train accidents alone, which was 139.

The largest number of passengers ever killed in all ways in one year, on the railways of the United States, was 647, and yet this worst of all records, which was made in 1907, was 44 less than the number killed in automobile accidents in 1912, in the 22 cities.

This assertion is based upon the statement of Frederic Rex, municipal reference librarian of Chicago, who finds that in 1912 the number of persons killed by automobiles in 22 American cities having 100,000 or more population, was 691.

These statistics are certainly appalling, and all the more so when one considers how totally unnecessary automobile accidents often are.

While there must always be exceptions to all rules, it is an established fact that by far the greater part of the auto accidents which occur are due to fast driving or to carelessness.

Not long ago the papers were full of the terrible tragedy which followed a thoughtless woman urging an auto driver to cross a railway track in the face of an oncoming train. Five lives were snuffed out in a moment by one woman's recklessness.

There is nothing which has contributed so much to the pleasure and convenience of the nation at large during recent years as the automobile. It is here to stay and is more and more becoming indispensable.

It is hoped that the warnings of terrible accidents, as heralded every day by the newspapers, and the compiling of statistics such as those set forth by the Railway Age Gazette, will lead to more care on the part of drivers.

The death toll of our railroads sinks into insignificance, compared to that of the automobile!

## The Motive Power

There's a great difference between doing one's work from love of it and shambling through it because it has to be done.

Stop and think a moment! Did you ever know a man to achieve genuine success who hated his work and dragged reluctant feet to it every day? Who watched the clock and didn't wait for it to strike till he was out and gone?

The high road to success is reached only by the stimulant of real interest and the sacrifice of many things to the dominant purpose. If a man—the masculine noun may stand for either sex—brings no zest to his work, one of two things is true—he is not suited to the line in which he is engaged, or he is lacking in earnest purpose—some call it shiftlessness.

If the former, the wise man seeks out the work that he finds more congenial and to which he can bring eagerness. If the latter—well, there isn't much hope for the man who doesn't know the meaning of the phrase, "love of work!"

"Work is becoming to some men, like whiskers, or red ties, but it doesn't follow that all men can stand it!"

We often hear the sympathetic words, "Poor fellow, he always has hard luck!" But is it always "hard luck?" Of course, there are isolated cases where apparent failure is due to a chain of unfortunate circumstances. But isn't it more often due to the man's own lack of grit and effort?

## To Keep Young One Must Be Full of Life and Should Dress Young

By Mme. NELLIE MELBA, Prima Donna

TO KEEP YOUNG ONE MUST KEEP ALIVE. ONE MUST BE WHAT YOU IN AMERICA CALL A LIVE WIRE. THE WOMAN WHO GROWS OLD IS THE WOMAN WHO GETS INTO A RUT AND STAYS THERE. SHE SHOULD HAVE A QUANTITY OF INTERESTS AND DEVOTE HERSELF PASSIONATELY TO EVERY ONE OF THEM IF SHE WOULD REMAIN ALERT AND VIGOROUS. BOREDOM AND INERTIA ARE THE FATAL ENEMIES OF YOUTH. ONE MUST DRESS YOUNG TO LOOK YOUNG.

I do not approve of the slit skirt, though. I think that it is vulgar and immodest. I do not approve of many of the extremes of modern fashion. They seem to me hideous, and I cannot understand how they can be adopted by a nice woman with artistic sensibility. NOTHING THAT IS EXAGGERATED IS ARTISTIC. The outre in dress is like a false note in music. It shocks. Dress is an art as much as music or painting. DRESS DEMANDS STUDY AND NATURAL TALENT. I like the way American women dress. I think they are most chic. They know how to select their clothes and how to wear them. Then they have such beautiful figures, and they walk so well and look so young.

## Poetry For Today

### IF I COULD WRITE.

If I could write a poem it would be All made of joy.  
Of laughing, sunny days and then, you see,  
Beyond a doubt,  
You'd read it and you'd know what 'twas about.

If I could write a story it would be A pretty thing.  
About plain people just like you and me,  
And that's a bit  
Above a million things that have been writ.

If I could write a play it would not be Of hideous things  
That scare the world and trouble you and me;  
That make us good  
By telling us how bad we're said to be.

If I could write a poem or a play Or anything,  
I'd try to write it in the gladdest way  
But what's the use?  
No one would print it if it did no one abuse.

## DELICATE CHILD

Made Strong and Healthy by Vinol.

Growing children play hard and work hard at school, which with rapid growth uses up an enormous amount of energy and vitality that must be replaced.

When a child is tired all the time, no appetite, weak, delicate and sickly, we guarantee Vinol, our delicious cod liver and iron tonic, will build them up, create a hearty appetite, sound flesh and muscle tissue, pure, healthy blood, and make them strong. Mrs. L. L. Bertrand, New Iberia, La., says: "My little one was weak and run down in health, and was continually taking cold. Different medicines failed to help, but when Vinol was recommended I found it a wonderful help to my child. It broke up the cold, and quickly restored health, and strength. Vinol is a most excellent tonic for children."

If Vinol fails to do just what we say, we will give back your money. Blackmer & Tanquary.

P. S. For any skin trouble try our Saxo Salve. We guarantee it. Advt.

## INTERESTING BITS OF NEWS

(By John E. M. Kerr.)

200 employees of the dead letter office handle about 20,000,000 pieces of mail a year. Perhaps 2,000,000 can be returned to the sender or addressee unopened. The letter opener an expert, can handle 3,000 pieces of mail a day. Of all this unclaimed mail, record is made only when valuable enclosures, as money, commercial paper, wills, deeds, mortgages, receipts, power of attorney, and all legal papers, stamps and articles of merchandise are found \$100,000 a year is the average amount returned to owners. One year \$2,000,000 of commercial paper is found.

Boston's Toy theater is erecting a new playhouse of its own with money supplied by two wealthy patrons. To continue on the same lines that have governed it for two years, the theater will give plays by American and foreign authors, especially such works as cannot command a commercial public. The Toy theater can attract a limited Boston Back Bay public sufficient to warrant its existence.

Nearly \$37,000,000 worth of "finishing touches" are to be made upon the Panama Canal next year, if Col. Goethals' recommendations made to Congress are approved. Storehouses, dry docks, coal stations and machine shops have not yet been constructed. Members of the appropriation committee sailed Saturday from New York to get first hand information.

A farmer going into Alaska, near Fairbanks, to raise wheat found the right land but also difficulties. Commenting on his experience he cites these facts: "The bringing in the seed would cost about \$1 a bushel. There are no thrashing machines in the valley and it would cost \$600 (freight) to get a machine there. Fencing and clearing land, say 100 acres, would go into a very considerable amount of money. If I could produce 50 bushels to the acre, and I am perfectly confident I can, I should produce 1000 bushels of wheat. What could I do with it? There are no mills there and if I should ship to Seattle it would cost me 60 cents a bushel. It would be an impossible crop to market."

In one month, in the Toronto market, following the enactment of our tariff laws, prices of cattle jumped from \$6.50 to as much as \$8.25 per hundred weight for choice steers. Canada, a short time since, seemed to be able to produce enough beef for home consumption, and some to spare, with the result that prices did not range high. As soon as our market was thrown open the higher prices prevailing here, due to shortage of supply, at once became the standard in Canada and began to attract cattle southward.

Secretary Bryan and Mrs. Bryan, who took for their Washington residence "Calumet Place" as it is known, formerly occupied by Gen. Logan, of Illinois, have established something of a foreign world setting within the American home. It is said there are many things visible therein reminiscent of the Nebraska's trip around the world. Mr. and Mrs. Bryan have diplomats and dignitaries of the nations of the earth at state dinners in an attractive dining room of southern type and there is brought to it some adornments of the Secretary's own plains country, which are seen side by side with objects from many countries of the globe. The room where guests are received is especially adorned with relics from many lands.

## A GLIMPSE BACK THROUGH YEARS

(John E. M. Kerr.)

June 6, 1872.

Another Pioneer Gone:—William Hays, born near Cynthiana, Ky., 1792, died after an illness of four months, 1872. His parents came from Pennsylvania and settled at an early day in Kentucky. In 1803 he came with his parents to Franklin county. In 1805 he came to Fayette before the county was organized. He married Miss Jane Lynn, of Frederick, Va., in 1818. Three of their seven children are living, Morgan and Hackney Hays and Mrs. Letitia Heagler, wife of Elijah Heagler. "An honest man's the noblest work of God."

The laying of the corner stone of the new Catholic Church, a short distance from town, on the Circleville pike, took place Sunday. A procession, numbering 400 persons, was formed at the Catholic church on Main street, and marched to the new church, where the ceremonies were conducted and a short address delivered by Archbishop Purcell, of Cincinnati.

The ticket hereinafter given, selected at the primary Saturday, is a good one, all the gentlemen well qualified to fill the offices satisfactorily to the people.

Sheriff, John Millikan; Auditor, A. McCandless; Clerk, M. Blanchard; Probate Judge, J. B. Priddy; Commissioner, A. C. Johnson; Recorder, Z. W. Heagler; Infirmary Director, E. B. Undergrove.

The following were the delegates chosen: Union Township, Allen Heagler, Daniel McLean, S. W. Stuckey, Wm. Burnett, Wm. Millikan.

Alternates: Darius Waters, P. E. Morehouse, E. C. Hamilton, John Miser, F. L. Nitterhouse.

 MISS FLORENCE USTICK, SOCIETY EDITOR

"A nuptial event of widespread interest, being equally interesting to many friends both in Fayette and Ross counties and elsewhere, takes place in Celina on Tuesday, November 25th, when Miss Margaret Blosser, of Austin, and Mr. Rollo Marchant, of near Washington C. H., are to be wedded. He is one of the most prominent farmers of Fayette county, while his bride-to-be comes from one of the best known of Ross county families.

Miss Blosser leaves the latter part of the week for Celina. The wedding is to take place at noon there at the home of her sister, Mrs. George Struckman. It is to be a small event, the invitations being limited to the members of the two families."—The Daily Scioto Gazette.

The bridegroom elect is the son of Mr. and Mrs. R. W. Marchant and has a large family connection as well as a host of friends, who will learn of his approaching marriage with the deepest interest.

Dame Rumor has it that the wedding is the sequence of an acquaintance beginning in Florida, where both the future bride and bridegroom have been winter tourists. They will spend their honeymoon in the East.

At four o'clock Wednesday afternoon at Grace parsonage, Rev. Frederick E. Ross married Miss Iva Bryant, daughter of Mrs. A. J. Bryant, of New Holland, and Mr. Harry Vincent Heath, of this city.

The bride belonging to a wealthy New Holland family, is well known in this city, where she frequently visits. A modish, pretty girl, she looked very smart in her going-away gown of dark blue.

The young couple were attended by the bride's sisters, Misses Oma and Audrey Bryant, Messrs. Albert Bachert and Sam Maddox.

Mr. and Mrs. Heath left on the afternoon train for Columbus. They will return in a day or two and make their home temporarily at the home of Mr. Chas. Phillips, with whom Mr. Heath is associated in business.

The congratulations of many friends await their return.

Mrs. J. M. Willis is entertaining the Wednesday Euchre club this afternoon.

The Browning club was indebted to the Art department, Mrs. Mary G. Burgett, chairman, for a fine program Tuesday night.

South America, being the country studied. Mrs. Lena Probasco presented "South American Statuary" in a most interesting paper. The statuary of this country is divided into two classes, Indian and modern. Indian art was developed to a high standard. Homes were palaces and splendid temples equipped with life-like statues.

Of the modern statuary two notable examples are the statue of Christopher Columbus, a marble shaft on the island where Columbus landed, and that of George Washington in Buenos Ayres. Empress Eugenie, of France, erected at Christobel a group of statues to commemorate the discovery of Columbus. Beautiful statues adorn the streets of Bolivia. The most notable statue in South America is "The Christ of the Andes," on the border between Chili and the Argentine Republic.

Mrs. Minnie Bush had an excellent paper on "South American Architecture." The genius of the people is displayed in its architecture, which shows the greatest simplicity and lack of outward adornment.

Peruvian granite and brick are used in building.

The homes are not as attractive

outwardly, owing to their being low and broad, but inside they are palatial and compensate for the length and breadth and lack of height.

The Franciscan church and monastery are notable and there are beautiful buildings in Buenos Ayres and Brazil. Buenos Ayres has the most modern and handsomest newspaper building in the world.

Miss Haldee Van Winkle, chairman of the Browning club's Educational committee, discussed the "School Survey Day" in a concise and interesting way, giving generous information appreciated by the club.

Under the new plan of the school survey the schools throughout the state will use the same textbooks in the same grades.

The schools of Ohio have been divided into three periods: The first was the old subscription period, in which schools held three months of the year. This period ended in 1820.

The second period was the legislative period, each man taxed and certain men, well to do, paying for a certain number of pupils. This lasted until 1847.

The third period under which the schools are now operating, is known as the Akron law. Under this law the Union schools became public schools. We are now on the verge of the fourth period, when the state steps in and takes the control away from the present local management.

The subject is one of much present-day interest.

Miss Kathleen Davis added an artistically played piano solo to the program, and responded to an enthusiastic encore.

# COUNCIL HOLDS SPECIAL SESSION OF IMPORTANCE

**\$2750 in Bonds to be Issued to Pay City's Portion of the Alley Paving Improvement—Funds Transferred to the Sinking Fund—Assessing Ordinance Passed—Water Company Trouble Soon to be Adjusted.**

A lengthy special session of the city council was held Tuesday night, with all members present, and many matters were brought up and discussed during the evening, while action was taken on several resolutions and ordinances.

Member Durant, as chairman of the Safety committee, reported that an amicable settlement of the controversy between the Washington Water company and the city was now near at hand, and he believed the double suction line promised by the company would be constructed in the near future. President Myers of the company is expected in this city within the next few days, and the committee expects to adjust all differences at that time.

When the ordinance to regulate the weighing of coal, coke, hay and grain was brought up, considerable argument resulted before definite action was taken on the measure, when it was passed.

A resolution to issue bonds in the sum of \$2750 for paying the city's portion of the alley paving, nearly went down to defeat before council understood the intention of the bond issue, as it was at first believed that the amount was for the resurfacing of streets instead of the alley improvement.

A resolution for the sewer improvement on Yeoman and McElwain streets, was passed, and the troublesome sewer will be taken care of accordingly.

The assessing ordinance on the alley extending from Court to East street between Fayette and Main, was read the third time and passed.

Complaint having been made that certain railroad crossings had not been improved as asked by council at a previous meeting, a resolution was adopted instructing the service director to again request the railroads to look after their crossings.

A resolution was passed transferring \$1313 from the Rawlings and Pearl street special assessment to the sinking fund to be used by the sinking fund trustees in the purchase of bonds.

Adjournment was taken until the next regular meeting, which is also the last meeting of the present council.

## WASHINGTON MILL BADLY HANDICAPPED

The snow storm of Sunday and Sunday night threatens to tie the Washington Milling company up unless relief is furnished yet today, as all available cars for shipping have been used and the railroad has not been able to furnish additional cars for the outgoing flour.

Tuesday evening an engine started to place some cars for the company, and had barely started when the engine "died" and the work was again postponed.

Meanwhile the flour has been stored in every available corner and everything placed in readiness to load cars in a hurry when they are secured. No grain has been shipped into the mill since the storm.

Wednesday morning it was stated that if cars could not be secured sometime Wednesday, the mill would probably close down Wednesday night until cars were on the siding ready for use.

With the exception of the flood last March, the mill has run continuously almost night and day.

## MUCH DISCOMFORT AT THE INFIRMARY

Owing to the heating system at the County Infirmary having been condemned by a state inspector, who refused to allow a greater pressure than 15 pounds, a large part of the institution has been very uncomfortable the past few days, owing to the inability of the crippled plant to furnish heat to keep all of the building warm.

Supt. Casey has been doing all in his power for the comfort of the inmates, but keeping the plant at the pressure permitted by the inspectors has failed to prevent the cold creeping into the big structure.

It will probably be some three weeks before the work of installing the new heating system is started. Meanwhile much discomfort will result from the cold.

## REMAINS ARRIVE FROM NORTH DAKOTA

The remains of Isaac Rogers, 61, who died in Sharon, North Dakota, November 7th, arrived in this city on the 9:45 train Wednesday morning, and were accompanied by his wife and sons, Lee and John.

The remains were taken to the residence of R. A. Richardson, on East Temple street, and funeral services will be held Thursday morning at 10 o'clock. Burial will be made in the Washington cemetery.

The deceased was a former resident of eastern Fayette and has many relatives and friends in this county.

## TAKES HIS MAN TO GREENFIELD

The marshal of Greenfield came up Tuesday afternoon and accompanied Clarence Greene back to Greenfield, where the man faces a charge of non-support.

It was ten o'clock before the marshal and his prisoner left the city, on account of the lateness of the D. T. & L. train.

Greene is the man who was arrested on the morning train from Jeffersonville Tuesday morning, after he had eluded the marshal at that place.

## ICE AND SNOW FALLS TO THE SIDEWALK

With a resounding crash, a large mass of snow and ice, which had accumulated on the sloping roof of the block at the Washington Savings Bank corner, fell to the sidewalk, Wednesday morning, but fortunately there was no one in the path of the avalanche.

A half ton of the accumulated ice and snow was in the mass that crashed to the sidewalk, and had a pedestrian been passing at that time serious injuries would probably have been suffered by the unlucky person.

Owing to the nature of the roof at the above mentioned place, there is danger of someone being seriously injured by falling ice and snow.

## "JIM" WILL VISIT THE Y. M. C. A. AND TELL WHAT HE SEES THERE

The Young Men's Christian Association is starting an advertising campaign to bring to the attention of everyone the facts and figures concerning its work. There are many persons who have never been inside its walls and know nothing of its work or activities. And there are some who have observed many phases of its effort and have not investigated its programs.

The value of its community extension is well known and the association is anxious that everyone become familiar with the only organization of the city that really belongs to all

the people, that has as its purpose the helping of all the people, all of the time.

To give the reading public the full and complete report of its work and programs, the Association has secured one of Washington's young men to visit the building each day and "drink in" the atmosphere and learn from its employed force what he can for those on the outside. Now Jim hasn't been going "down there", and he ought to be able to hand out the details in a way that all can understand.

Tomorrow, the Herald will publish "Jim's Arrival at the Y. M. C. A."

## ACTIVE PLANS FOR WINTER'S WORK

The Woman's Auxiliary, Y. M. C. A., is now actively engaged in plans for the winter's work. Its organization is under the supervision of the Y. M. C. A. and its officers were appointed by the Y. M. C. A. trustees.

The organization was effected as a board of ten women, the four Protestant churches of the city each having representation on the board.

Grace church is represented by Mrs. W. W. Davies, Mrs. D. H. Rowe and Miss Edith Gardner; the Presbyterian church by Mrs. Austin F. Hopkins, Mrs. J. T. Tuttle and Miss Emma Jackson; the First Baptist by Mrs. Carrie B. Willis, Miss Florence Ogle and the Christian church by Mrs. Will E. Robinson and Mrs. Clifford Irvin.

Withal the representation of the different churches in the formation of the board, the Auxiliary is non-sectarian and there are no lines drawn on its membership.

The Board recently organized with Mrs. Willis, president; Mrs. Hopkins, treasurer and Miss Gardner, secretary.

As its name implies the Auxiliary will do everything in its power to lend a helping hand to the Y. M. C. A. Its special efforts are just now devoted to the establishing of a rest room in the Y. M. C. A. plant.

In this project they are urging the co-operation of women of both town and county.

The fees are only \$1.00 and it is hoped that women generally will become honorary members, at least, of the Auxiliary.

## EGG PRICES DROP

Result of Campaign of New York Housewives' League.

New York, Nov. 12. — The Housewives' league already claims encouraging results in the campaign against the high price of eggs. Mrs. Julia Heath, the president of the league, and 11 other women asserted that all of the stores had cut off at least a few cents from the prevailing high prices. In some places the best storage eggs are selling as low as 33 cents a dozen. In some of the higher-priced stores, however, fancy eggs were priced as high as 75 cents a dozen.

## VALUABLE ESTATE

New York, Nov. 12. — The will of Charles G. Gates, who died suddenly at Cody, Wyo., Oct. 29, leaves the bulk of his estate in equal shares to his mother, Mrs. John W. Gates, and his wife, Florence Hopwood Gates. The value of the estate is estimated at between \$3,000,000 and \$5,000,000. Accordingly, the two residuary legatees will probably inherit over \$2,000,000 each. The will was executed on Aug. 2, 1912, and names Mrs. John W. Gates as sole executrix.

## CHANCES ARE SLIM

Washington, Nov. 12.—The question of the selection of Henry M. Pindell of Peoria, Ill. for the ambassadorship to St. Petersburg, was the subject for extended discussion at the state department. Mr. Pindell's chances for representing his country at the court of the czar "for one year only" are said to be no brighter than before. Pindell is an editor.

## PEYTON IN JAIL COULD NOT PAY

Jess Peyton was arrested at Jeffersonville Tuesday afternoon and brought to this city by Constable A. A. Hisey, on a charge of failure to provide for his minor children.

In Probate court he was given the usual \$200 and costs and 3 months in the work house, and this was suspended as long as he provides for his small children, which he agreed to do.

He was also given \$5 and the costs for contempt of court when he

# SUBMIT PLANS TO THE CONVENTION

Anti-Saloon Leaders Would Re-organize the League.

TO MAKE IT COHERENT UNIT

Various State Superintendents Will Be Appointed by a National Board of Directors, If Scheme Is Adopted. Campaign For National Prohibition Launched — Ohio Liquor License Policy Attacked.

Columbus, O., Nov. 12. — Providing the proper machinery for the national movement looking to a saloonless nation through constitutional amendment, the national board of trustees of the Anti-Saloon league set in motion work which will result in a complete reorganization of the national body.

The plan will make a coherent unit instead of a federation. A committee is at work on a revision of the constitution and bylaws, and these will be amended before the present gathering adjourns. According to one of the workers, the purpose of the change is to make it possible to get rid of drones and luke-warm workers within the organization.

The principal change which the reorganization of the national body will effect will be to make the various state superintendents appointive at the hands of a national board of directors and responsible to the national superintendent. Another feature will be a rearrangement of the finances, whereby the wealthier states will be able to bear the burdens of those with slenderer means. The country will be divided into 16 districts, over each of which will be a member of the national executive committee.

Baker Assails Cox.

General Superintendent Baker, in his address to the delegates, praised the league's work and attacked Governor Cox of Ohio. Mr. Baker said the governor has been one of the best friends the liquor traffickers in Ohio ever had. He denounced the liquor license policy, saying: "Governor Cox has succeeded in hammering into form through the liquor license boards

Third. Economy is beneficial to children. To be extravagant before children is a great wrong to them. It is much better for them to be taught economy both in the use of their money and in the use of their time. It would be well for these children to have savings accounts in The Buckeye and receive four and five per cent interest thereon. This will teach them to be economical and thrifty. ## Man Nearly Killed By Fellow Who Gets Purse

Local friends of George Vincent, who resides in Chillicothe, will be interested in the following account of a murderous attack made upon him by a thief, as told by the Chillicothe News:

"One of the boldest robberies perpetrated in Chillicothe in a long time, occurred about six o'clock on Monday evening, when George Vincent, of 534 East Second street, was knocked down while in his barn and robbed of forty dollars. He was slugged on the head with an iron weapon in the hands of an unknown man, and the wonder of it was that he was not killed.

"Mr. Vincent had been to the loft in his barn, tossing down hay, and when he came down he had an arm full of corn for his horses. That was the last he remembered, for two blows on the head felled him to the ground and he was unconscious, until his wife found him about fifteen

minutes afterward. Mrs. Vincent had grown alarmed at his long absence, and found her husband lying on the barn floor.

"The robber secured four ten dollar bills, which Mr. Vincent carried in his small trouser pocket. Mr. Vincent says it would be utterly impossible for him to identify the man. It was very dark and the blows came from behind. Dr. Franklin was summoned, and it required eight stitches to sew up the wound on the left side of the head, and three stitches on the other side.

"Mr. Vincent did not report the matter to the police. He said he considered it useless because he had not been able to see the man. It was certainly a bold case of highway robbery, and evidently the man was acquainted with Mr. Vincent's movements and knew that he carried money on his person. Nothing else was disturbed."

## RECORD-SMASHING ENTRIES IN SHOW

Entries vastly exceeding in number any list heretofore compiled indicate growing interest in the International Stock Exhibition, which occurs this year at Chicago, November 29th to December 6th. No such list of exhibits has ever before been prepared, nor for that matter have the live stock producers of the North American continent previously manifested such concern in the future of that industry. Every department of the exhibition will be full; interest being manifested alike in horses, cattle, hogs and sheep.

The spectacular side of the exposition will be as prominent as the practical. A series of evening attractions of unique character have been prepared and there will be no lack of entertainment to maintain the essential equilibrium. Equipose has always been a characteristic of the "International," and the management intends to attain the standard of perfection in every department on this occasion.

Interest in the draft horse, instead of waning its growing and the nightly horse fair will excel even the superb equine display of former years.

In the swine and sheep breeders of the United States and Canada promise to eclipse all previous efforts. Wisconsin and Ontario, as usual, will make a stellar display, and the Western grower will again demonstrate the merit of range product.

Current and threatened beef scarcity renders the fat cattle display of more than usual interest this year. That the beef industry is "coming back" will be effectively demonstrated, and feeders will be furnished with numerous object lessons on the subject of economy in production. In other words, the master feeders of the country will show and tell how they do it.

If you miss the 1913 International Live Stock Exposition you will be the loser.

## WILL MOVE BACK TO SUNNY SOUTH

With the recent purchase of a 500 acre plantation near Demopolis, Ala., Mr. W. A. Bacon, who came here from Paris, Ky., last spring, has announced his intention of leaving this county on March 1st for his big estate just purchased.

The farm is located in a rich agricultural section, and is especially adapted to the growing of alfalfa and southern crops.

Mr. Bacon will dispose of his famous race horse Peter Billiken, for whom the Russian government is alleged to have offered \$10,000 last summer.

When he came to this county he expected to make this his permanent home, but the price of land was deemed too high, and he decided to purchase a plantation in the south.

Fayette county will regret to see Mr. and Mrs. Bacon leave for their southern home.

## WATER POLLUTED AT CLEVELAND

Cleveland, O., Nov. 12. — With fair, warmer weather predicted, Cleveland is hopeful of a speedy cessation of the difficulties that have beset it since the worst snow storm in its history descended upon it Sunday night. A resumption of the blizzard would be fatal, since it would prevent relief from the food scarcity which the city now faces. Rain would seriously complicate the situation, because flood conditions would then ensue. As a result of the disturbed state of the lake, a new menace developed. The drinking water has turned to the color of coffee, and warnings were issued by the health department to obviate a typhoid epidemic by the boiling of water.

The number of dead here has been increased to five. John Richmond, 58, was crushed to death by the collapse of the roof of his house beneath the weight of snow, and William Combert was frozen in a snowdrift.

Business men and factory owners estimated loss in business to wholesale and retail companies at many millions of dollars. A great part of the citizens are unable to leave their homes. Many bakeries closed because of a lack of power.

The streets are impassable for wagons, and undertakers are unable to remove the bodies of persons who have died since the breaking of the storm.

### Widow Asks For \$50,000.

Bellefontaine, O., Nov. 12. — Mrs. Lillie Mantz of Middletown sued Logan county for \$50,000 damages, alleging that her husband, George Mantz, lost his life when an auto in which he was seated fell through an open bridge on a county pike. Before Mantz died he also sued the county for \$50,000 damages for injuries received.

She left him as soon as she learned of the divorce. The only reason given for Fox getting the divorce is that he wanted to "have it handy," though he did not intend to leave his wife.

## BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It.

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system.

They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without gripping, pain or disagreeable effects of any kind.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil, you will know them by their olive color.

 MISS FLORENCE USTICK, SOCIETY EDITOR

"A nuptial event of widespread interest, being equally interesting to many friends both in Fayette and Ross counties and elsewhere, takes place in Celina on Tuesday, November 25th, when Miss Margaret Blosser, of Austin, and Mr. Rollo Marchant, of near Washington C. H. are to be wedded. He is one of the most prominent farmers of Fayette county, while his bride-to-be comes from one of the best known of Ross county families.

Miss Blosser leaves the latter part of the week for Celina. The wedding is to take place at noon there at the home of her sister, Mrs. George Struckman. It is to be a small event, the invitations being limited to the members of the two families."—The Daily Scioto Gazette.

The bridegroom elect is the son of Mr. and Mrs. R. W. Marchant and has a large family connection as well as a host of friends, who will learn of his approaching marriage with the deepest interest.

Dame Rumor has it that the wedding is the sequence of an acquaintance beginning in Florida, where both the future bride and bridegroom have been winter tourists. They will spend their honeymoon in the East.

At four o'clock Wednesday afternoon at Grace parsonage, Rev. Frederick E. Ross married Miss Iva Bryant, daughter of Mrs. A. J. Bryant, of New Holland, and Mr. Harry Vincent Heath, of this city.

The bride belonging to a wealthy New Holland family, is well known in this city, where she frequently visits. A modish, pretty girl, she looked very smart in her going-away gown of dark blue.

The young couple were attended by the bride's sisters, Misses Oma and Audrey Bryant, Messrs. Albert Bachert and Sam Maddox.

Mr. and Mrs. Heath left on the afternoon train for Columbus. They will return in a day or two and make their home temporarily at the home of Mr. Chas. Phillips, with whom Mr. Heath is associated in business.

The congratulations of many friends await their return.

Mrs. J. M. Willis is entertaining the Wednesday Euchre club this afternoon.

The Browning club was indebted to the Art department, Mrs. Mary G. Burgett, chairman, for a fine program Tuesday night.

South America, being the country studied, Mrs. Lena Probasco presented "South American Statuary" in a most interesting paper. The statuary of this country is divided into two classes, Indian and modern. Indian art was developed to a high standard. Homes were palaces and splendid temples equipped with life-like statues.

Of the modern statuary two notable examples are the statue of Christopher Columbus, a marble shaft on the island where Columbus landed, and that of George Washington in Buenos Ayres. Empress Eugenie, of France, erected at Christobel a group of statues to commemorate the discovery of Columbus. Beautiful statues adorn the streets of Bolivia. The most notable statue in South America is "The Christ of the Andes," on the border between Chili and the Argentine Republic.

Mrs. Minnie Bush had an excellent paper on "South American Architecture." The genius of the people is displayed in its architecture, which shows the greatest simplicity and lack of outward adornment.

Peruvian granite and brick are used in building.

The homes are not as attractive

outwardly, owing to their being low and broad, but inside they are palatial and compensate for the length and breadth and lack of height.

The Franciscan church and monastery are notable and there are beautiful buildings in Buenos Ayres and Brazil. Buenos Ayres has the most modern and handsomest newspaper building in the world.

Miss Haldee Van Winkle, chairman of the Browning club's Educational committee, discussed the "School Survey Day" in a concise and interesting way, giving generous information appreciated by the club.

Under the new plan of the school survey the schools throughout the state will use the same textbooks in the same grades.

The schools of Ohio have been divided into three periods: The first was the old subscription period, in which schools held three months of the year. This period ended in 1820.

The second period was the legislative period, each man taxed and certain men, well to do, paying for a certain number of pupils. This lasted until 1847.

The third period under which the schools are now operating, is known as the Akron law. Under this law the Union schools became public schools. We are now on the verge of the fourth period, when the state steps in and takes the control away from the present local management.

The subject is one of much present-day interest.

Miss Kathleen Davis added an artistically played piano solo to the program, and responded to an enthusiastic encore.

THE USELESS CHRISTMAS GIFT

By Associated Press.

New York, Nov. 11.—A country-wide appeal for the abolition of the useless Christmas gift and a plea for intelligent and thoughtful giving instead were voiced tonight by Mrs. August Belmont, President of the Spugs, at the opening meeting of the 1913 campaign to be waged by that organization against insincerity, compulsion and waste in Christmas giving.

At this meeting the membership rolls of the Spugs—the Society for the Prevention of Useless Giving—were thrown open to all residents of the United States who might want to enroll against the foolish Christmas gift. Having grown from a handful to more than 5,000 within a few weeks during the last Christmas season, the Spugs have outlined for this year a national campaign and hope to establish societies in all cities and towns throughout the country.

Mrs. J. Borden Harriman presided at tonight's meeting. District Attorney Whitman, newly enrolled as a member, and Francis Crowninshield delivered addresses. Mrs. Belmont was the orator of the evening. The original purpose of the society, she said, was to prevent compulsory giving by girls in stores and factories to their employers, the custom of collective giving which the girls felt they could not afford but which they could not avoid without embarrassment and possible loss of their positions. This was one of the chief objects of the society, she added, but not the only one. Another prime attainment sought, she said, was a general cultivation, by all classes of givers, of more thoughtfulness and expression of personality in making Christmas gifts.

"We do not disapprove of collective giving when it is done on the spur of the moment," she said, "or for some particular cause, because then it means that you have collected a sense of human fellowship of which the money collected is but an expression. We do approve of it when it is for the man lower down instead of for the man higher up.

"Some persons think that we oppose giving. Far from it; we do not oppose giving, but we advocate intelligent giving—giving that is done with the Christmas spirit of goodwill as distinguished from giving that is compulsory, from fear or with the hope of obtaining reward—whether that reward be the favor of the man higher up or advancement. The world at large should put more of the Christmas spirit into giving. Christmas should be a time for every person to do his or her share.

"Some folks tell us, 'Of course, you want to promote useful giving.' The word useful has many changes of meaning. Usually when one thinks of a useful present, it is a present decidedly middle-class or commonplace. So we do not attempt to promote useful giving in the commonly accepted definition of that word. The thing we are really out to do is to abolish something. We feel that when we have done that there will follow good sense in giving and that everybody will be profited thereby.

"We propose to decrease the cost of the gift and increase the good will; to make the heart of Father Christmas rejoice by little acts of kindness, unselfishness, by putting thought into the gift we sent our dear ones. Give generously; but from your heart, with all your thought. Don't make a business of giving, make it an art. Don't waste what should be a season of goodwill freely given."

SHORE STREWN WITH WRECKS

**Survivors Tell Stories of Terrific Battles With Winds and Waves and of Harrowing Experiences Ashore.**

Lakes Superior, Michigan, Huron and Erie All Contribute to the Death Toll.

Chicago, Nov. 12.—The shores of Lakes Superior, Huron and Erie are strewn with the wreckage of a three days' gale and snowstorm, which cost the lives of probably 60 persons, turned bottom up in midlake a 300-foot vessel with its crew, wrecked or grounded numerous other craft and caused a property loss as yet unestimated, but which will run into the millions.

The details of the storm, which literally swept from the western end of Lake Superior to the eastern shore of Lake Erie, became known when survivors began arriving in various ports with tales of hardships and heroic rescues seldom equaled on the lakes.

The death toll, with many ports unreported, is told thus: Twenty-five, perhaps 40, men probably drowned in the overturning of a freighter found floating in Lake Huron; five bodies washed ashore at St. Joseph, on the Canadian side of Lake Huron (four had belts marked "Wexford" and one wore a belt marked "London"); three bodies washed ashore on the west shore of Lake Huron; two bodies washed ashore opposite the position of the overturned boat; six members of a lightship drowned in Lake Erie, near Buffalo.

It was impossible even to estimate

the loss to vessels wrecked or damaged by grounding. Skippers in Detroit, estimated the loss in Lake Huron and the Detroit and St. Clair rivers alone to be several hundred thousand dollars. Three of the wrecked steamers increase the loss by \$500,000, while the scores of smaller craft driven ashore in Lake Superior and Lake Erie will send the total to much higher.

STORIES OF SURVIVORS

**Have Harrowing Experiences at Sea and Ashore.**

Milwaukee, Wis., Nov. 12.—A terrible tale of privation on the Great Lakes came from the south shore of Lake Superior, but the members of the crew of the L. C. Waldo, given up for lost, were all saved, though half-frozen, starved and nearly dead from exposure.

The 17 members of the crew of the steamer Turret Chief had an equally terrible experience, but here again all were saved, though 72 hours without food and nearly naked in the piercing gale, constantly drenched by the icy waters of Lake Superior.

The most terribly devastating storm in the history of the lakes is told in the dispatches from Sault Ste. Marie, Calumet and Duluth.

Briefly, here is a summary of the storm damage on Lake Superior and Lake Michigan: Steamer L. C. Waldo, total loss, on Gull rock, Manitou Island, off Keweenaw Point; Turret Chief, total loss, at Eagle harbor, Keweenaw Point; two unknown steamers ashore on Isle Royale; passenger steamer Huronic, stranded on White Fish Point; barge Halstead, stranded on Washington Island, Lake Michigan, crew of six probably frozen to death.

C. A. Tomlinson of Duluth announces following reports of losses elsewhere: Hawgood, stranded above Port Huron; Saxona, aground at Port Huron, can be saved; Hutchinson, aground at Iroquois Point, Lake Huron, full of water; J. M. Jenks, ashore at Midland, Georgian bay.

PANAMA CANAL ABLY DEFENDED

Garrison Holds It a Marvellous Engineering Feat.

Washington, Nov. 12.—Secretary of War Garrison discussed the defense of the Panama canal. "The defense constitutes a marvelous feat in engineering," said he. "The works are now in readiness for the installation of the mortars and 14-inch guns." He explained that guns to be mounted at the Atlantic and Pacific terminals will have a range of 10 or 12 miles, adequate to protect either Miraflores or Gatun locks. "The first step toward developing the naval defense of the canal was taken when five submarine boats were dispatched from Guantanamo to Chystobal.

SIDEWALKS IN BAD CONDITION

Since Sunday the sidewalks all over the city have been in a really dangerous condition where the snow has become packed and frozen, and many persons have sustained severe falls, but so far as known no serious injuries have resulted.

Not only have the sidewalks been in bad condition owing to the snow remaining upon them, but the streets in many places have been so that horses could hardly stand upon them, particularly early in the morning before the thaw commences.

# SUBMIT PLANS TO THE CONVENTION

Anti-Saloon Leaders Would Re-organize the League.

TO MAKE IT COHERENT UNIT

Various State Superintendents Will Be Appointed by a National Board of Directors, if Scheme Is Adopted. Campaign For National Prohibition Launched — Ohio Liquor License Policy Attacked.

Columbus, O., Nov. 12. — Providing the proper machinery for the national movement looking to a saloonless nation through constitutional amendment, the national board of trustees of the Anti-Saloon league set in motion work which will result in a complete reorganization of the national body.

The plan will make a coherent unit instead of a federation. A committee is at work on a revision of the constitution and bylaws, and these will be amended before the present gathering adjourns. According to one of the workers, the purpose of the change is to make it possible to get rid of drones and luke-warm workers within the organization.

The principal change which the reorganization of the national body will effect will be to make the various state superintendents appointive at the hands of a national board of directors and responsible to the national superintendent. Another feature will be a rearrangement of the finances, whereby the wealthier states will be able to bear the burdens of those with slenderer means. The country will be divided into 16 districts, over each of which will be a member of the national executive committee.

Baker Assails Cox.

General Superintendent Baker, in his address to the delegates, praised the league's work and attacked Governor Cox of Ohio. Mr. Baker said the governor has been one of the best friends the liquor traffickers in Ohio ever had. He denounced the liquor license policy, saying: "Governor Cox has succeeded in hammering into form through the liquor license boards

Third. Economy is beneficial to children. To be extravagant before children is a great wrong to them. It is much better for them to be taught economy both in the use of their money and in the use of their time. ## Man Nearly Killed By Fellow Who Gets Purse

Local friends of George Vincent, who resides in Chillicothe, will be interested in the following account of a murderous attack made upon him by a thief, as told by the Chillicothe News:

"One of the boldest robberies perpetrated in Chillicothe in a long time, occurred about six o'clock on Monday evening, when George Vincent, of 534 East Second street, was knocked down while in his barn and robbed of forty dollars. He was slugged on the head with an iron weapon in the hands of an unknown man, and the wonder of it was that he was not killed.

"Mr. Vincent had been to the loft in his barn, tossing down hay, and when he came down he had an arm full of corn for his horses. That was the last he remembered, for two blows on the head felled him to the ground and he was unconscious, until his wife found him about fifteen

minutes afterward. Mrs. Vincent had grown alarmed at his long absence, and found her husband lying on the barn floor.

"The robber secured four ten dollar bills, which Mr. Vincent carried in his small trouser pocket. Mr. Vincent says it would be utterly impossible for him to identify the man. It was very dark and the blows came from behind. Dr. Franklin was summoned, and it required eight stitches to sew up the wound on the left side of the head, and three stitches on the other side.

"Mr. Vincent did not report the matter to the police. He said he considered it useless because he had not been able to see the man. It was certainly a bold case of highway robbery, and evidently the man was acquainted with Mr. Vincent's movements and knew that he carried money on his person. Nothing else was disturbed."

## RECORD-SMASHING ENTRIES IN SHOW

Entries vastly exceeding in number any list heretofore compiled indicate, growing interest in the International Stock Exhibition, which occurs this year at Chicago, November 29th to December 6th. No such list of exhibits has ever before been prepared, nor for that matter have the live stock producers of the North American continent previously manifested such concern in the future of that industry. Every department of the exhibition will be full; interest being manifested alike in horses, cattle, hogs and sheep.

The spectacular side of the exposition will be as prominent as the practical. A series of evening attractions of unique character have been prepared and there will be no lack of entertainment to maintain the essential equilibrium. Equipoise has always been a characteristic of the "International," and the management intends to attain the standard of perfection in every department on this occasion.

Interest in the draft horse, instead of waning its growing and the nightly horse fair will excel even the superb equine display of former years.

In the swine and sheep the breeders of the United States and Canada promise to eclipse all previous efforts. Wisconsin and Ontario, as usual, will make a stellar display, and the Western grower will again demonstrate the merit of range product.

Current and threatened beef scarcity renders the fat cattle display of more than usual interest this year. That the beef industry is "coming back" will be effectively demonstrated, and feeders will be furnished with numerous object lessons on the subject of economy in production. In other words, the master feeders of the country will show and tell how they do it.

If you miss the 1913 International Live Stock Exposition you will be the loser.

## WILL MOVE BACK TO SUNNY SOUTH

With the recent purchase of a 500 acre plantation near Demopolis, Ala., Mr. W. A. Bacon, who came here from Paris, Ky., last spring, has announced his intention of leaving this county on March 1st for his big estate just purchased.

The farm is located in a rich agricultural section, and is especially adapted to the growing of alfalfa and southern crops.

Mr. Bacon will dispose of his famous race horse Peter Billiken, for whom the Russian government is alleged to have offered \$10,000 last summer.

When he came to this county he expected to make this his permanent home, but the price of land was deemed too high, and he decided to purchase a plantation in the south. Fayette county will regret to see Mr. and Mrs. Bacon leave for their southern home.

## PNEUMONIA CLAIMS YOUNG BUSINESS MAN

Harry A. Dunn, of Sabina, died Tuesday from an attack of pneumonia which lasted only a few days.

The young man had recently gone to Mt. Healthy, a suburb of Cincinnati, to open a restaurant, and the first known of his illness was when word reached Sabina that he was dead.

The remains will be shipped to Sabina and funeral services held Thursday, followed by burial in the Sabina cemetery.

## Y. M. B. CLASS ENJOYS SUPPER

The Young Men's Bible class of the Christian church met at the home of Tom Baum on East Market street, Tuesday night, and enjoyed a chicken supper, after which a business meeting was held.

The class is one of the most enthusiastic of its kind in the city, and has been making its presence felt in the church.

## WATER POLLUTED AT CLEVELAND

Cleveland, O., Nov. 12.—With fair, warmer weather predicted, Cleveland is hopeful of a speedy cessation of the difficulties that have beset it since the worst snowstorm in its history descended upon it Sunday night. A resumption of the blizzard would be fatal, since it would prevent relief from the food scarcity which the city now faces. Rain would seriously complicate the situation, because flood conditions would then ensue. As a result of the disturbed state of the lake, a new menace developed. The drinking water has turned to the color of coffee, and warnings were issued by the health department to obviate a typhoid epidemic by the boiling of water.

The number of dead here has been increased to five. John Richmond, 58, was crushed to death by the collapse of the roof of his house beneath the weight of snow, and William Combett was frozen in a snowdrift.

Business men and factory owners estimated loss in business to wholesale and retail companies at many millions of dollars. A great part of the citizens are unable to leave their homes. Many bakeries closed because of a lack of power.

The streets are impassable for wagons, and undertakers are unable to remove the bodies of persons who have died since the breaking of the storm.

### Widow Asks For \$50,000.

Bellefontaine, O., Nov. 12.—Mrs. Lillie Mantz of Middletown sued Logan county for \$50,000 damages, alleging that her husband, George Mantz, lost his life when an auto in which he was seated fell through an open bridge on a county pike. Before Mantz died he also sued the county for \$50,000 damages for injuries received.

## DIVORCE KEPT HANDY

Louisville, Ky., Nov. 12. — That P. A. Fox secured a divorce from his wife without her knowledge and then continued to live with her several years was the allegation made by the former wife in a suit to deprive him of any claim to her property. She left him as soon as she learned of the divorce. The only reason given for Fox getting the divorce is that he wanted to "have it handy," though he did not intend to leave his wife.

## BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It.

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system.

They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, gripping cathartics are derived from Dr. Edwards' Olive Tablets without gripping, pain or disagreeable effects of any kind.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint with the attendant bad breath.

Dr. Edwards' Olive Tablets are purely a vegetable compound mixed with olive oil, you will know them by their olive color.

Take one or two every night for a week and not the effect. 10c and 25c per box. The Olive Tablet Company, Columbus, O. advt

## MAYOR IN CELL

Coshocton, O., Nov. 12.—Lloyd N. Staats, Socialist mayor-elect of Coshocton, announces he will spend the first night of his administration behind the bars of the city prison with the New Year's delinquents, as his first step toward reforming Coshocton's system of handling city prisoners.

## ANNUAL CELEBRATION OF OHIO UNIVERSITY

The date of the third annual celebration of Ohio State university day has been assigned for Saturday evening, November 29. Ohio State alumni in all quarters of the globe will gather to celebrate the occasion on that date.

The festivities at Manila, P. I., will be led by Newton W. Gilbert, vice governor of the Islands. In London, England, "Pottsy" Morris will have charge of the festival occasion, while in innumerable places from Calgary, Alberta, Canada to Mexico City and the Isle of Pines, loyal sons and daughters of Ohio State will gather to do honor to their alma mater.

# THE USELESS CHRISTMAS GIFT

By Associated Press.  
New York, Nov. 11.—A country-wide appeal for the abolition of the useless Christmas gift and a plea for intelligent and thoughtful giving instead were voiced tonight by Mrs. August Belmont, President of the Spugs, at the opening meeting of the 1913 campaign to be waged by that organization against insincerity, compulsion and waste in Christmas giving.  
At this meeting the membership rolls of the Spugs—the Society for the Prevention of Useless Giving—were thrown open to all residents of the United States who might want to enroll against the foolish Christmas gift. Having grown from a handful to more than 5,000 within a few weeks during the last Christmas season, the Spugs have outlined for this year a national campaign and hope to establish societies in all cities and towns throughout the country.

Mrs. J. Borden Harriman presided at tonight's meeting. District Attorney Whitman, newly enrolled as a member, and Francis Crowninshield delivered addresses. Mrs. Belmont was the orator of the evening. The original purpose of the society, she said, was to prevent compulsory giving by girls in stores and factories to their employers, the custom of collective giving which the girls felt they could not afford but which they could not avoid without embarrassment and possible loss of their positions. This was one of the chief objects of the society, she added, but not the only one. Another prime attainment sought, she said, was a general cultivation, by all classes of givers, of more thoughtfulness and expression of personality in making Christmas gifts.

"We do not disapprove of collective giving when it is done on the spur of the moment," she said, "or for some particular cause, because then it means that you have collected a sense of human fellowship of which the money collected is but an expression. We do approve of it when it is for the man lower down instead of for the man higher up."  
"Some persons think that we oppose giving. Far from it; we do not oppose giving, but we advocate intelligent giving—giving that is done with the Christmas spirit of goodwill as distinguished from giving that is compulsory, from fear or with the hope of obtaining reward—whether that reward be the favor of the man higher up or advancement. The world at large should put more of the Christmas spirit into giving. Christmas should be a time for every person to do his or her share."

## SHORE STREWN WITH WRECKS

**Survivors Tell Stories of Terrible Battles With Winds and Waves and of Harrowing Experiences Ashore.**  
Lakes Superior, Michigan, Huron and Erie All Contribute to the Death Toll.

Chicago, Nov. 12. — The shores of Lakes Superior, Huron and Erie are strewn with the wreckage of a three days' gale and snowstorm, which cost the lives of probably 60 persons, turned bottom up in midlake a 300-foot vessel with its crew, wrecked or grounded numerous other craft and caused a property loss as yet unestimated, but which will run into the millions.

The details of the storm, which literally swept from the western end of Lake Superior to the eastern shore of Lake Erie, became known when survivors began arriving in various ports with tales of hardships and heroic rescues seldom equaled on the lakes. The death toll, with many ports unreported, is told thus: Twenty-five, perhaps 40, men probably drowned in the overturning of a freighter found floating in Lake Huron; five bodies washed ashore at St. Joseph, on the Canadian side of Lake Huron (four had belts marked "Wexford" and one wore a belt marked "London"); three bodies washed ashore on the west shore of Lake Huron; two bodies washed ashore opposite the position of the overturned boat; six members of a lightship drowned in Lake Erie, near Buffalo.

It was impossible even to estimate

the loss to vessels wrecked or damaged by grounding. Skippers in Detroit, estimated the loss in Lake Huron and the Detroit and St. Clair rivers alone to be several hundred thousand dollars. Three of the wrecked steamers increase the loss by \$500,000, while the scores of smaller craft driven ashore in Lake Superior and Lake Erie will send the total to much higher.

### STORIES OF SURVIVORS

**Have Harrowing Experiences at Sea and Ashore.**

Milwaukee, Wis., Nov. 12.—A terrible tale of privation on the Great Lakes came from the south shore of Lake Superior, but the members of the crew of the L. C. Waldo, given up for lost, were all saved, though half-frozen, starved and nearly dead from exposure.

The 17 members of the crew of the steamer Turret Chief had an equally terrible experience, but here again all were saved, though 72 hours without food and nearly naked in the piercing gale, constantly drenched by the icy waters of Lake Superior.

The most terribly devastating storm in the history of the lakes is told in the dispatches from Sault Ste. Marie, Calumet and Duluth.

Briefly, here is a summary of the storm damage on Lake Superior and Lake Michigan: Steamer L. C. Waldo, total loss, on Gull rock, Manitou island, off Keweenaw Point; Turret Chief, total loss, at Eagle harbor, Keweenaw Point; two unknown steamers ashore on Isle Royale; passenger steamer Huronic, stranded on White Fish Point; barge Halstead, stranded on Washington island, Lake Michigan, crew of six probably frozen to death.

C. A. Tomlinson of Duluth announces following reports of losses elsewhere: Hawgood, stranded above Port Huron; Saxona, aground at Port Huron, can be saved; Hutchinson, aground at Iroquois Point, Lake Huron, full of water; J. M. Jenks, ashore at Midland, Georgian bay.

## PANAMA CANAL ABLY DEFENDED

Garrison Holds It a Marvellous Engineering Feat.

Washington, Nov. 12.—Secretary of War Garrison discussed the defense of the Panama canal. "The defense constitutes a marvelous feat in engineering," said he. "The works are now in readiness for the installation of the mortars and 14-inch guns." He explained that guns to be mounted at the Atlantic and Pacific terminals will have a range of 10 or 12 miles, adequate to protect either Miraflores or Gatun locks. The first step toward developing the naval defense of the canal was taken when five submarine boats were dispatched from Guantanamo to Chystobal.

## SIDEWALKS IN BAD CONDITION

Since Sunday the sidewalks all over the city have been in a really dangerous condition where the snow has become packed and frozen, and many persons have sustained severe falls, but so far as known no serious injuries have resulted.

Not only have the sidewalks been in bad condition owing to the snow remaining upon them, but the streets in many places have been so that horses could hardly stand upon them, particularly early in the morning before the thaw commences.

## DAYTON CO. BUYS WILMINGTON PLANT

The Dayton Power & Light Company which owns a number of light plants in surrounding towns, including Xenia, has purchased the Wilmington Light and Water plant and will proceed to furnish that city with power and light from the Dayton plant.

When approved by the State Utilities Commission the Dayton company will take charge of the Wilmington plant.

## IS ERECTING A MODERN BUNGALOW

John M. Jones, ex-commissioner of Fayette county, is having a modern bungalow erected on Midland avenue in Bloomingburg.

The foundation for the structure has been completed within the past few days, and plans call for a frame structure of six rooms and bath. It will be completed next spring.

THE USELESS CHRISTMAS GIFT

By Associated Press.  
New York, Nov. 11.—A country-  
wide appeal for the abolition of the  
useless Christmas gift and a plea for  
intelligent and thoughtful giving in-  
stead were voiced tonight by Mrs.  
August Belmont, President of the  
Spugs, at the opening meeting of the  
1913 campaign to be waged by  
that organization against insincerity,  
compulsion and waste in Christmas  
giving.  
At this meeting the membership  
rolls of the Spugs—the Society for  
the Prevention of Useless Giving—  
were thrown open to all residents of  
the United States who might want  
to enroll against the foolish Christ-  
mas gift. Having grown from a  
handful to more than 5,000 within  
a few weeks during the last Christ-  
mas season, the Spugs have outlined  
for this year a national campaign  
and hope to establish societies in all  
cities and towns throughout the  
country.  
Mrs. J. Borden Harriman presided  
at tonight's meeting. District At-  
torney Whitman, newly enrolled as  
a member, and Francis Crownshield  
delivered addresses. Mrs. Belmont  
was the orator of the evening. The  
original purpose of the society, she  
said, was to prevent compulsory  
giving by girls in stores and factories  
to their employers, the custom of col-  
lective giving which the girls felt  
they could not afford but which they  
could not avoid without embarrass-  
ment and possible loss of their posi-  
tions. This was one of the chief  
objects of the society, she added,  
but not the only one. Another prime  
attainment sought, she said, was a  
general cultivation, by all classes of  
givers, of more thoughtfulness and  
expression of personality in making  
Christmas gifts.  
"We do not disapprove of collec-  
tive giving when it is done on the  
spur of the moment," she said, "or  
for some particular cause, because  
then it means that you have collect-  
ed a sense of human fellowship of  
which the money collected is but an  
expression. We do approve of it  
when it is for the man lower down  
instead of for the man higher up."  
"Some persons think that we op-  
pose giving. Far from it; we do not  
oppose giving, but we advocate in-  
telligent giving—giving that is done  
with the Christmas spirit of good-  
will as distinguished from giving  
that is compulsory, from fear or with  
the hope of obtaining reward—  
whether that reward be the favor of  
the man higher up or advancement.  
The world at large should put more  
of the Christmas spirit into giving.  
Christmas should be a time for every  
person to do his or her share."  
"Some folks tell us, 'Of course,  
you want to promote useful giving.'  
The word useful has many changes  
of meaning. Usually when one thinks  
of a useful present, it is a present de-  
cidedly middle-class or commonplace.  
So we do not attempt to promote use-  
ful giving in the commonly accept-  
ed definition of that word. The thing  
we are really out to do is to abolish  
something. We feel that when we  
have done that there will follow good  
sense in giving and that everybody  
will be profited thereby."  
"We propose to decrease the cost  
of the gift and increase the good  
will; to make the heart of Father  
Christmas rejoice by little acts of  
kindness, unselfishness, by putting  
thought into the gift we sent our  
dear ones. Give generously; but  
from your heart, with all your  
thought. Don't make a business of  
giving, make it an art. Don't waste  
what should be a season of goodwill  
freely given."

SHORE STREWN  
WITH WRECKS

Survivors Tell Stories of Terrible Bat-  
tles With Winds and Waves and of  
Harrowing Experiences Ashore.  
Lakes Superior, Michigan, Huron  
and Erie All Contribute to the  
Death Toll.  
Chicago, Nov. 12.—The shores of  
Lakes Superior, Huron and Erie  
are strewn with the wreckage of a  
three days' gale and snowstorm,  
which cost the lives of probably 60  
persons, turned bottom up in midlake  
a 300-foot vessel with its crew, wreck-  
ed or grounded numerous other craft  
and caused a property loss as yet un-  
estimated, but which will run into the  
millions.  
The details of the storm, which lit-  
erally swept from the western end of  
Lake Superior to the eastern shore of  
Lake Erie, became known when sur-  
vivors began arriving in various ports  
with tales of hardships and heroic  
rescues seldom equaled on the lakes.  
The death toll, with many ports un-  
reported, is told thus: Twenty-five,  
perhaps 40, men probably drowned in  
the overturning of a freighter found  
floating in Lake Huron; five bodies  
washed ashore at St. Joseph, on the  
Canadian side of Lake Huron (four  
had belts marked "Wexford" and one  
wore a belt marked "London"); three  
bodies washed ashore on the west  
shore of Lake Huron; two bodies  
washed ashore opposite the position  
of the overturned boat; six members  
of a lightship drowned in Lake Erie,  
near Buffalo.  
It was impossible even to estimate

the loss to vessels wrecked or dam-  
aged by grounding. Skippers in De-  
troit, estimated the loss in Lake Hur-  
on and the Detroit and St. Clair riv-  
ers alone to be several hundred thou-  
sand dollars. Three of the wrecked  
steamers increase the loss by \$500,  
000, while the scores of smaller craft  
driven ashore in Lake Superior and  
Lake Erie will send the total to much  
higher.  
SIDEWALKS IN  
BAD CONDITION  
Since Sunday the sidewalks all  
over the city have been in a really  
dangerous condition where the snow  
has become packed and frozen, and  
many persons have sustained severe  
falls, but so far as known no serious  
injuries have resulted.  
Not only have the sidewalks been  
in bad condition owing to the snow  
remaining upon them, but the streets  
in many places have been so that  
horses could hardly stand upon them,  
particularly early in the morning be-  
fore the thaw commences.

STORIES OF SURVIVORS

Have Harrowing Experiences at Sea  
and Ashore.  
Milwaukee, Wis., Nov. 12.—A ter-  
rible tale of privation on the Great  
Lakes came from the south shore of  
Lake Superior, but the members of  
the crew of the L. C. Waldo, given up  
for lost, were all saved, though half-  
frozen, starved and nearly dead from  
exposure.  
The 17 members of the crew of the  
steamer Turret Chief had an equally  
terrible experience, but here again all  
were saved, though 72 hours without  
food and nearly naked in the piercing  
gale, constantly drenched by the icy  
waters of Lake Superior.  
The most terribly devastating storm  
in the history of the lakes is told in  
the dispatches from Sault Ste. Marie,  
Calumet and Duluth.  
Briefly, here is a summary of the  
storm damage on Lake Superior and  
Lake Michigan: Steamer L. C. Waldo,  
total loss, on Gull rock, Manitou  
island, off Keweenaw Point; Turret  
Chief, total loss, at Eagle harbor, Ke-  
weenaw Point; two unknown steam-  
ers ashore on Isle Royale; passenger  
steamer Huronic, stranded on White  
Fish Point; barge Halstead, stranded  
on Washington island, Lake Michigan,  
crew of six probably frozen to death.  
C. A. Tomlinson of Duluth an-  
nounces following reports of losses  
elsewhere: Hawgood, stranded above  
Port Huron; Saxona, aground at Port  
Huron, can be saved; Hutchinson,  
aground at Iroquois Point, Lake Hu-  
ron, full of water; J. M. Jenks, ashore  
at Midland, Georgian bay.

PANAMA CANAL  
ABLY DEFENDED

Garrison Holds It a Marvellous En-  
gineering Feat.  
Washington, Nov. 12.—Secretary of  
War Garrison discussed the defense of  
the Panama canal. "The defense con-  
stitutes a marvellous feat in engineer-  
ing," said he. "The works are now  
in readiness for the installation of the  
mortars and 14-inch guns." He ex-  
plained that guns to be mounted at  
the Atlantic and Pacific terminals  
will have a range of 10 or 12 miles,  
adequate to protect either Miraflores  
or Gatun locks. The first step toward  
developing the naval defense of the  
canal was taken when five submarine  
boats were dispatched from Guantan-  
amo to Chystobal.

## NATIONAL BASEBALL BOARD IS CROWDED

By Associated Press.

Columbus, Ohio, Nov. 12.—When the National Baseball Board of Arbitration, which at a session that practically extended through last night and resulted in the handing down of decisions on about three dozen claim, resumes its work this afternoon, it will have before it one hundred more cases. The annual convention of the National Baseball Association, which opened here yesterday, resumed work at 10:30 today. The day is expected to be taken up largely with committee reports.

Among claims allowed thus far by the arbitration board, was that of player Potter, against Ironton. Decision previously given re-affirmed, and that of S. C. Perry against Charleston, W. Va., 7 days salary allowed.

## OHIO STATE RALLY DAY

Saturday night, November 29th, will be dedicated to Ohio State Day celebration and the annual rally and banquet all over the state.

The rally day banquets of the past two years in this city have been notable affairs in the college world and arouse anticipation for the 29th.

The idea of the banquet is to promote O. S. U. fellowship, to reunite alumni members, to induce "old timers" to reminiscence, to entertain with college song and "stunts" rather than to make it a banquet of expensive luxuries.

Local arrangements for Rally Day have not yet been completed.

## REBELS MASSACRE BRAVE LITTLE BAND

By Associated Press.

Mexico City, November 12.—A band of Rebels on Saturday massacred five Federal officers and nine soldiers at Muzquiz, state of Coahuila. The fourteen men fought until their last cartridge was fired, then were overpowered and killed. The little detachment of Federals under the command of Major Gumjardo had been left to garrison the town which has 6000 inhabitants. When the Rebels attacked them, the Federal soldiers, although they had no hope of victory, ignored the offer of the Rebel commander to spare their lives, decided to fight to the end. They kept up a struggle for 24 hours. Federal re-inforcements from Porfirio arrived today and drove off the Rebels.

## DELAY CURRENCY BILL

By Associated Press.

Washington, D. C., November 12. Marked progress to an agreement on the administration currency bill by the six democratic members of the Senate Banking committee resulted in a request that action by the Democratic conference called for today be delayed. The six Democrats, Senator O'Gorman, said, were reaching an agreement by mutual concessions.

## INITIAL RUN WILL BE MADE TUESDAY

Next Tuesday morning at 10 o'clock the Baker Motor Bus leaves the Arcade hotel, Springfield, for its initial run to South Charleston, South Solon and Jeffersonville.

A party of newspaper men and others will be carried on the initial trip, and will be guests of Mr. Baker for the day.

The bus has nearly the same seating capacity as a traction car, and the bed is mounted on a three and one-half ton Kelly chassis, especially built for the service.

due here at 8:23 a. m., was delayed about one hour at Mt. Sterling, Wednesday morning, when the engine broke down.

Several Washington citizens were aboard the train.

**Milk Bottle Law Constitutional.**  
Columbus, O., Nov. 12.—Judge Rathmell of the county courts, in affirming the ruling of a magistrate's court, sustained the constitutionality of the law prohibiting milkmen from using the bottles of another. The law in question prohibits the refilling of labeled bottles except by the owner thereof.

**Postmasters Short; Both Fined.**  
Toledo, O., Nov. 12.—Postmaster W. J. Wenego of Tontogany, Wood county, was fined \$3,250, and Lewis A. Ridenour, postmaster at Briceton, Paulding county, was fined \$2,500 by Judge Killits in the federal court. They pleaded guilty to shortages in their accounts.

**Charge Roomer With Arson.**  
Lima, O., Nov. 12.—Deputy State Fire Marshal Lee of Sidney has caused the arrest here of C. M. Daniels of Elizabeth, W. Va., on a charge of arson. Daniels is alleged to have set fire to a bed in a local lodging house, after a quarrel with his landlady.

**Hanging From a Tree.**  
Port Clinton, O., Nov. 12.—The body of an unidentified man was found hanging from a tree in Wahler's woods by boys who were hunting rabbits. Indications are that the body had been hanging for several days.

**Fire Attacks State Barn.**  
Wooster, O., Nov. 12.—The big dairy barn of the Ohio agricultural experiment station, in which are housed a herd of valuable cattle, was damaged to the extent of \$2,500 by fire.

### TO THE POINT

Three trainmen were killed in a freight wreck on the Grand Trunk railroad near Waukegan, Ont.

Dr. S. Robert Best, mayor of Centerville, O., was fined \$250 and costs for issuing prescriptions for the unlawful sale of liquor.

Suffragists adopted bombs in the war against their foes and destroyed the famous Cactus house in Alexandra park, Manchester, England.

Twenty-five automobiles were wrecked when the Standard automobile garage at Coshocton, O., collapsed under the weight of 15 inches of snow on the roof.

Mrs. Frank Stocla was shot and killed while in bed and her husband fatally wounded by a negro burglar at their home in Beaver, Pa. Harry Green, a suspect, is under arrest.

At Columbus, Ind., Collin McCord, a farmer, seeks to perpetually enjoin his son, Charles R. McCord, and the latter's 10-year-old daughter Ruth, from staying at or visiting his home without invitation.

**Judge Dwyer Improving.**  
Dayton, O., Nov. 12.—Judge Dennis Dwyer of Dayton, who had been seriously afflicted for 10 days with a throat ailment that made it impossible for him to take nourishment, is reported as improved. Judge Dwyer was the oldest in the membership of the recent constitutional convention and presided at the initial meeting.

### Views of Others

#### TELEPHONES AND GERMS.

In these nervous days, when some one of the large family of disease germs is supposed to be lurking around every corner for the careless, ignorant or unwary, it is comforting to know that the public telephone is practically free from bacilli. For this rather surprising announcement we have the word of the postmaster general of Great Brit-

ain. And as telephones, and the methods of using them, are much the same the world over, it is safe to apply the British assurance to our own phones.

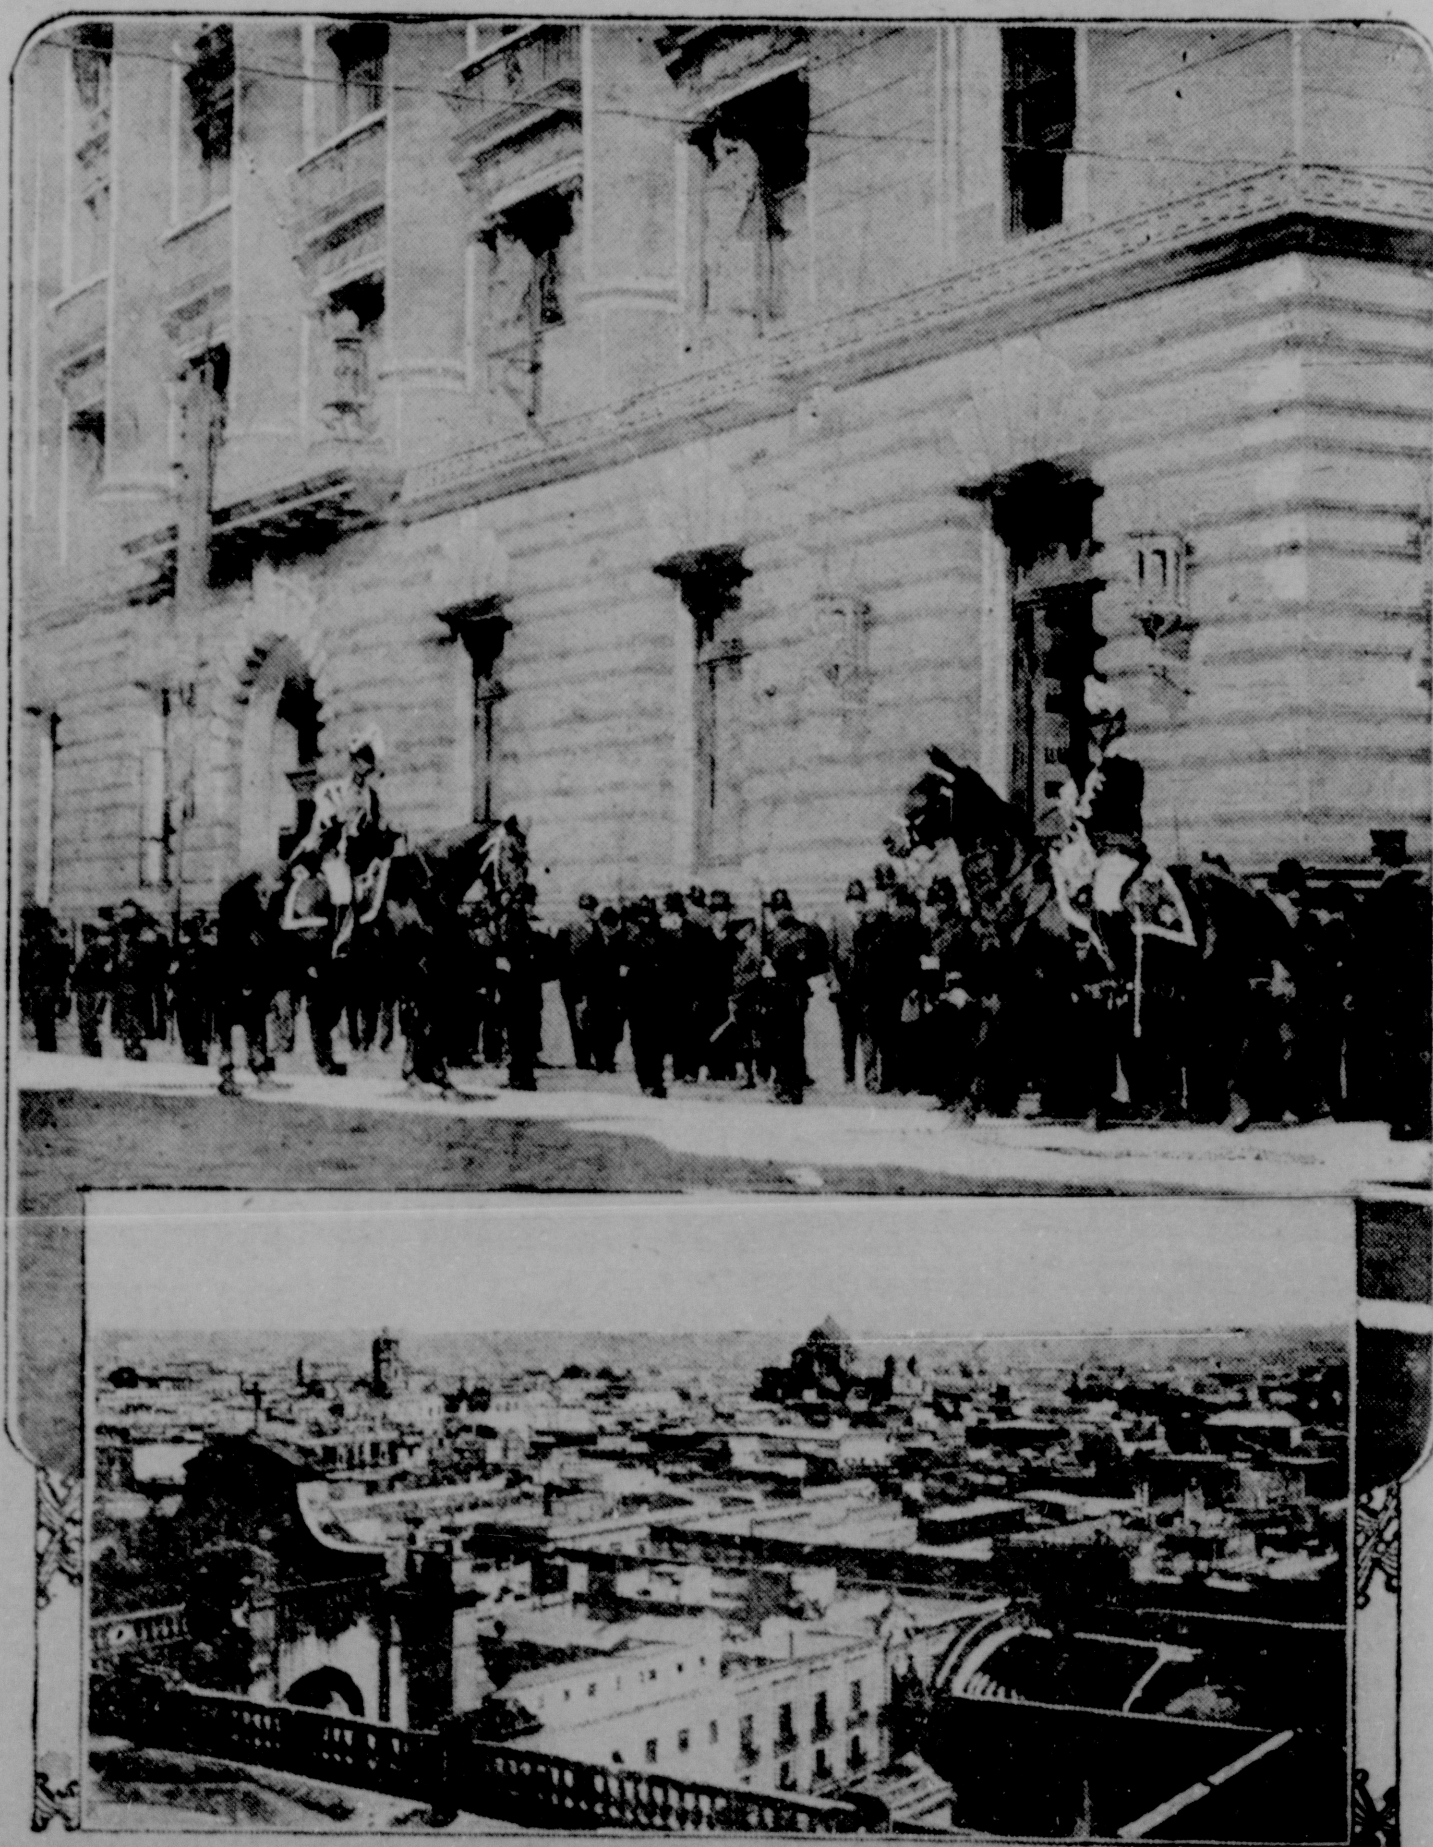

The British postmaster general selected several well-known laboratory scientists to conduct experiments with the telephone to determine particularly whether the tuberculosis bacilli found lodgment in the mouth-piece of the instrument. The experiments were carried on for twelve months. Thousands of phones were examined. Finding no germs the physicians even subjected to the

same tests the telephones in sanatoriums filled with tuberculosis patients. They were amazed to find the instruments perfectly free from germs.

the end of their year's work they reported to the post-office authorities telephones being under government control in Great Britain.

We hope that the volunteer sanitary experts who blow stale tobacco smoke into public phones under fond belief that they are sterilizing the instruments, will now take a vacation. Their wellmeaning efforts are apparently unnecessary.—Tim Star.

## Eyes of Whole World on Mexico City, Where Huerta's Iron Hand Rule Was Opposed by the United States.

Photos by American Press Association.

Victoriano Huerta, the provisional president of Mexico, whose rule President Wilson refused to recognize, held sway over Mexico City, the national capital, with an iron hand. His soldiers constantly patrolled the principal streets and guarded the palace carefully, as is seen in one of these pictures. A general view of Mexico City is also shown. The eyes of the whole world were on this city as the Mexican situation grew more critical.

Columbus, Ohio, Nov. 12.—When the National Baseball Board of Arbitration, which at a session that practically extended through last night and resulted in the handing down of decisions on about three dozen claims, resumes its work this afternoon, it will have before it one hundred more cases. The annual convention of the National Baseball Association, which opened here yesterday, resumed work at 10:30 today. The day is expected to be taken up largely with committee reports.

Among claims allowed thus far by the arbitration board, was that of player Potter, against Ironston. Decision previously given re-affirmed, and that of S. C. Perry against Charleston, W. Va., 7 days salary allowed.

## OHIO STATE RALLY DAY

Saturday night, November 29th, will be dedicated to Ohio State Day celebration and the annual rally and banquet all over the state.

The rally day banquets of the past two years in this city have been notable affairs in the college world and arouse anticipation for the 29th.

The idea of the banquet is to promote O. S. U. fellowship, to reunite alumni members, to induce "old timers" to reminiscence, to entertain with college song and "stunts" rather than to make it a banquet of expensive luxuries.

Local arrangements for Rally Day have not yet been completed.

## REBELS MASSACRE

## BRAVE LITTLE BAND

By Associated Press.

Mexico City, November 12.—A band of Rebels on Saturday massacred five Federal officers and nine soldiers at Muzquiz, state of Coahuila. The fourteen men fought until their last cartridge was fired, then were overpowered and killed. The little detachment of Federals under the command of Major Gumjardo had been left to garrison the town which has 6000 inhabitants. When the Rebels attacked them, the Federal soldiers, although they had no hope of victory, ignored the offer of the Rebel commander to spare their lives, decided to fight to the end. They kept up a struggle for 24 hours. Federal re-inforcements from Porfirio arrived today and drove off the Rebels.

## DELAY CURRENCY BILL

By Associated Press.

Washington, D. C., November 12. Marked progress to an agreement on the administration currency bill by the six democratic members of the Senate Banking committee resulted in a request that action by the Democratic conference called for today be delayed. The six Democrats, Senator O'Gorman, said, were reaching an agreement by mutual concessions.

## INITIAL RUN WILL BE MADE TUESDAY

Next Tuesday morning at 10 o'clock the Baker Motor Bus leaves the Arcade hotel, Springfield, for its initial run to South Charleston, South Solon and Jeffersonville.

A party of newspaper men and others will be carried on the initial trip, and will be guests of Mr. Baker for the day.

The bus has nearly the same seating capacity as a traction car, and the bed is mounted on a three and one-half ton Kelly chassis, especially built for the service.

### Views of Others

#### TELEPHONES AND GERMS.

In these nervous days, when some one of the large family of disease germs is supposed to be lurking around every corner for the careless, ignorant or unwary, it is comforting to know that the public telephone is practically free from bacilli. For this rather surprising announcement we have the word of the postmaster general of Great Brit-

ain. And as telephones, and the methods of using them, are much the same the world over, it is safe to apply the British assurance to our own phones.

The British postmaster general selected several well-known laboratory scientists to conduct experiments with the telephone to determine particularly whether the tuberculosis bacilli found lodgment in the mouthpiece of the instrument. The experiments were carried on for twelve months. Thousands of phones were examined. Finding no germs the physicians even subjected to the

same tests the telephones in sanatoriums filled with tuberculosis patients. They were amazed to find the instruments perfectly free from germs. At the end of their year's work they so reported to the post-office authorities telephones being under government control in Great Britain.

We hope that the volunteer sanitary experts who blow stale tobacco smoke into public phones under the fond belief that they are sterilizing the instruments, will now take a long vacation. Their wellmeaning efforts are apparently unnecessary.—Times-Star.

due here at 8:23 a. m., was delayed about one hour at Mt. Sterling, Wednesday morning, when the engine broke down.

Several Washington citizens were aboard the train.

#### Milk Bottle Law Constitutional.

Columbus, O., Nov. 12.—Judge Rathmell of the county courts, in affirming the ruling of a magistrate's court, sustained the constitutionality of the law prohibiting milkmen from using the bottles of another. The law in question prohibits the refilling of labeled bottles except by the owner thereof.

#### Postmasters Short; Both Fined.

Toledo, O., Nov. 12.—Postmaster W. J. Wenego of Tontogany, Wood county, was fined \$3,250, and Lewis A. Ridenour, postmaster at Briceton, Paulding county, was fined \$2,500 by Judge Killits in the federal court. They pleaded guilty to shortages in their accounts.

#### Charge Roomer With Arson.

Lima, O., Nov. 12.—Deputy State Fire Marshal Lee of Sidney has caused the arrest here of C. M. Daniels of Elizabeth, W. Va., on a charge of arson. Daniels is alleged to have set fire to a bed in a local lodging house, after a quarrel with his landlady.

#### Hanging From a Tree.

Port Clinton, O., Nov. 12.—The body of an unidentified man was found hanging from a tree in Wahler's woods by boys who were hunting rabbits. Indications are that the body had been hanging for several days.

#### Fire Attacks State Barn.

Wooster, O., Nov. 12.—The big dairy barn of the Ohio agricultural experiment station, in which are housed a herd of valuable cattle, was damaged to the extent of \$2,500 by fire.

#### TO THE POINT

Three trainmen were killed in a freight wreck on the Grand Trunk railroad near Waukegan, Ont.

Dr. S. Robert Best, mayor of Centerville, O., was fined \$250 and costs for issuing prescriptions for the unlawful sale of liquor.

Suffragists adopted bombs in the war against their foes and destroyed the famous Cactus house in Alexandra park, Manchester, England.

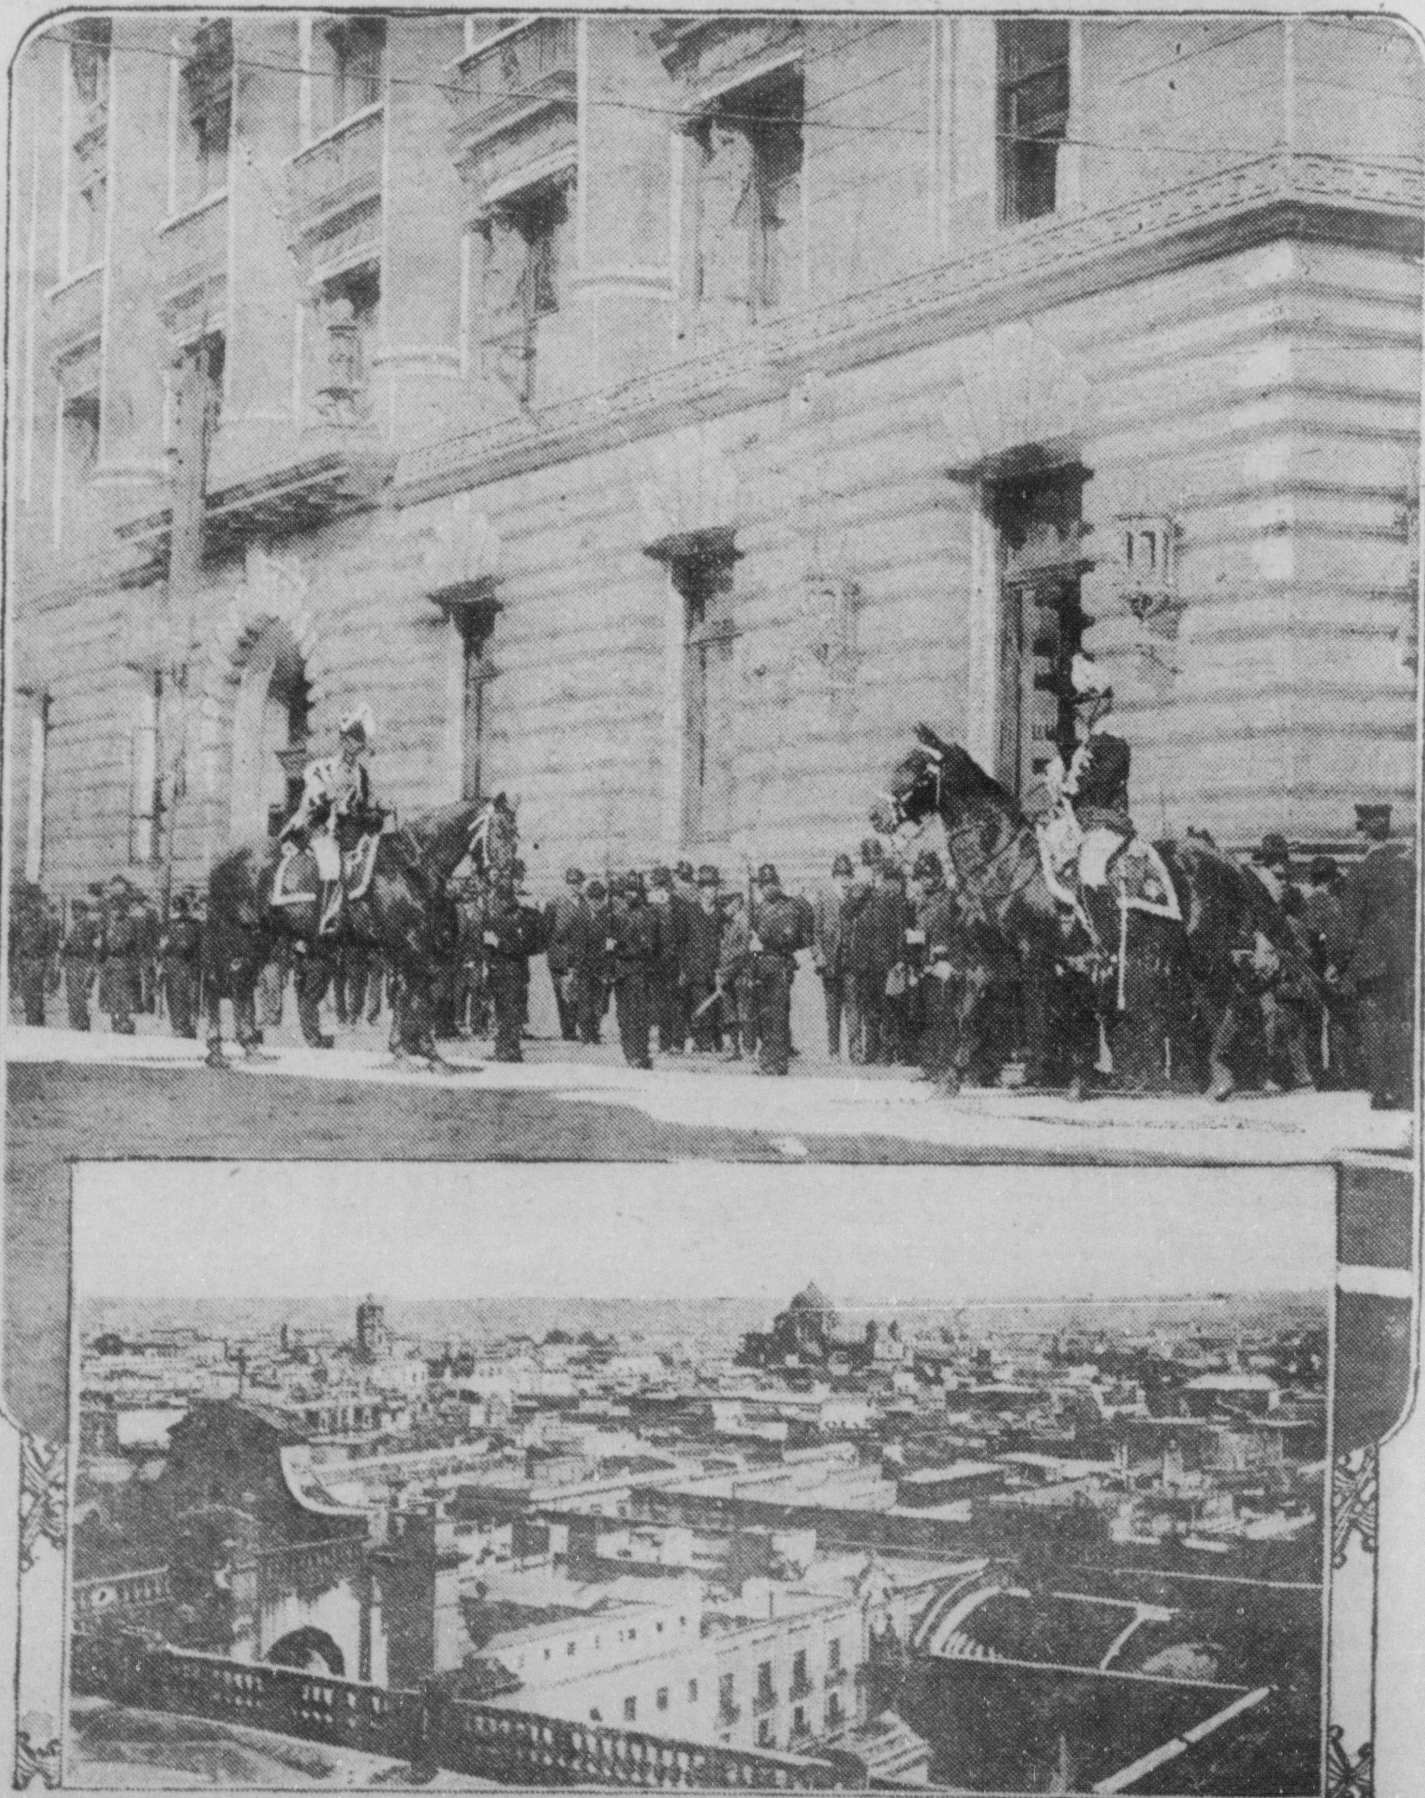

Twenty-five automobiles were wrecked when the Standard automobile garage at Coshocton, O., collapsed under the weight of 15 inches of snow on the roof.

Mrs. Frank Stocia was shot and killed while in bed and her husband fatally wounded by a negro burglar at their home in Beaver, Pa. Harry Green, a suspect, is under arrest.

At Columbus, Ind., Collin McCord, a farmer, seeks to perpetually enjoin his son, Charles R. McCord, and the latter's 10-year-old daughter Ruth, from staying at or visiting his home without invitation.

#### Judge Dwyer Improving.

Dayton, O., Nov. 12.—Judge Dennis Dwyer of Dayton, who had been seriously afflicted for 10 days with a throat ailment that made it impossible for him to take nourishment, is reported as improved. Judge Dwyer was the oldest in the membership of the recent constitutional convention and presided at the initial meeting.

Photos by American Press Association.

Victoriano Huerta, the provisional president of Mexico, whose rule President Wilson refused to recognize, held sway over Mexico City, the national capital, with an iron hand. His soldiers constantly patrolled the principal streets and guarded the palace carefully, as is seen in one of these pictures. A general view of Mexico City is also shown. The eyes of the whole world were on this city as the Mexican situation grew more critical.
